SCHEDULE FOR CLASSROOM FORUM 2019-2020

Documentation Center of Cambodia (DC-Cam)'s Prey Veng Documentation Center, in collaboration with Ministry of Education, Youth and Sport (MoEYS) with the support from the United States Agency for International Development (USAID), will conduct its Classroom Forum on "The Importance of Studying the History of Democratic Kampuchea (1975-1979)" at ten (10) High Schools in Prey Veng Province, beginning on November 2019 and end on July 2020. This is an one-day forum with high school grade-12 students. Prey Veng Documentation Center will work closely with local school administration to ensure maximum participation of students.

With a focus on historical narratives as content and critical thinking, debate, and reflection as process, these forums are not only crucial to build sustainability of genocide education in the capital, but also in provinces nationwide. The Forum will build on the schools' pre-existing genocide education programs that were established using DC-Cam's curriculum and provide additional opportunities for student learning as well as teacher mentoring.

The purpose of this forum will be to educate students on the history of Democratic Kampuchea (known as Khmer Rouge) as well as provide a forum for encouraging critical thought, dialogue, and debate on how the country's past informs its present-day problems and future. The forum's objectives and activities include:

1. To provide students with an opportunity to share and express their personal knowledge on what happened during the Democratic Kampuchea regime.
2. To let students think critically on the transitional consequences of this legacy to the current Cambodian society.
3. To encourage discussion over this legacy in families and communities.
4. To distribute Democratic Kampuchea (1975-1979) textbooks to participating students.
5. To facilitate mentoring opportunities between trained DC-Cam/MoEYS officials and local teachers.

Below schedule is done after discussions with school directors of the ten-high schools:

(Please note that the schedule is flexible due to some extra or urgent work within work implementation at Prey Veng Documentation Center or through requests from the school to delay or postpone)
