OVER 60 YEARS OF EXCELLENCE IN EDUCATION

Founded in 1957, Ruamrudee International School (RIS) was one of the first international schools in Asia to be fully accredited by WASC and the Thai Ministry of Education. Today, RIS continues to be a model of excellence and innovation in global education and remains one of Thailand's leading international schools.

"Ruamrudee" is Thai for "union of hearts," which perfectly captures our school's philosophy of welcoming all children, emphasizing social responsibility, and ensuring a warm, welcoming learning environment. From PreK 2–Grade 12, RIS offers our 1,200 students a robust, modified American curriculum stewarded by a progressive teaching staff rich in expertise, creativity, and compassion. More than 72% of all RIS teachers hold a master's degree or higher.

An IB World School since 1998, RIS is one of few schools in Thailand to offer both the International Baccalaureate Diploma Program and Advanced Placement tracks. Our students consistently prove their academic excellence by scoring far above world averages and attending the most prestigious colleges and universities around the world. Many of our alumni go on to become leading local and international figures in fields of law, business, medicine, politics, and diplomatic service.

RIS students benefit from small class sizes, relevant and innovative electives, modern languages, and a vibrant performing and visual arts program. Our Student Services department, led by school psychologists, ensures that our English Language Development and Learning Support programs meet the diverse needs of all our students. At RIS, we prepare our students to successfully compete in the global marketplace.

Our amazing students excel both in and out of the classroom. RIS has one of the largest athletic programs of any international school in Southeast Asia, with more than 70 different sports teams. We also offer a broad range of academic and service-oriented clubs, such as the Model UN, National Honors Society, World Scholar's Cup, and Habitat for Humanity. Our extended day program provides creative enrichment opportunities in everything from fashion design to gaming to yoga and dance. RIS nurtures students' minds, hands, and hearts.

Located just outside of Bangkok, our 29-acre clean-air campus is less than half an hour from Suvarnabhumi International Airport and is supported by a thriving suburban community. With separate buildings for each section, an artificial turf, an Olympic FINA-standard pool, multiple courts, and two libraries, RIS offers a full range of vibrant educational opportunities. Our state-of-the-art facilities include 21st-century learning spaces, a recording studio, a culinary arts center, Makerspaces, and robotics lab. The middle and high school students who live on campus enjoy a contemporary, college-style boarding facility with a warm, familial feel.

As it has been for the last 60 years, our goal is to develop creative, compassionate, critical thinkers who are committed to leading happy, healthy lives and help others do the same. And this is why RIS students continue to forge lasting, positive legacies for the world.
