A STUDY OF THE LEADERSHIP QUALITIES IN HIGH SCHOOL STUDENTS IN EAST GODAVARI DISTRICT OF ANDHRA PRADESH

Dr. Annapureddy Dhanalakshmi

Principal

G.T.P College of Education for Women

Bhimavaram, Andhra Pradesh, India

Abstract

The present investigation was an attempt to determine a study of the leadership qualities in high school students. Various indian and foreign studies were reviewed. Descriptive survey method has been used in this study. The sample consisted of 200 high school students from the high schools of east godavari district using stratified random sampling method. Self-constructed tools were prepared and standardised and adopted for the study. The data were analyzed using various stastical methods like mean, SD, T-TEST, and ANOVA by SPSS package. The score obtained by different groups are compared across the variables like gender, age, class, type of management, locality with respect of students. The results show there is a significant difference in between boys and girls of high school students.

Keywords: Leadership Qualities, Eastgodavari, High School Student.

Introduction: The word leadership conjures up different vision in the mind of different persons. However leadership is without doubt,the most potent influence and at the same time , the most dramatic activity in the field of educational administration and supervision it is currently the most commonly associated word with administration and Mangement.It must also be remembered that even setting of goals is an act of leadership .It is the direction and outcomes of leadership that count for example leaders like genghis khan Alexader, Napoleon, Subhash chandrabose, Hitler and florence nieghtingle were leaders .

Need for the study: Education has a prominent place in the present-day society. It is through education an individual can be shaped in to a good citizen of the country. So, the education that is given in schools must have leadership qualities. So, in the present study the investigator made an attempt to find out the various leadership qualities of high school students.
