

# THE MAGIC TRACK RE-ANIMATOR

HOW TO RAPIDLY REVIVE THOSE DYING TUNES  
BURIED ON YOUR GRAVEYARD HARD DRIVES...

Do you really want  
to finish this?

Not all tracks will  
be worth the loss  
of momentum...

Listen to it.  
Just once.

Do this away from  
your DAW with a  
pen and paper...

Write your ideas  
on paper.

Think of at least 5  
to try before you  
get it done...

Get your ideas in  
order.

Whats' your plan  
of attack going to  
be?

Make an action list.

Include your ideas to  
try & everything else  
to do to get it done...

Stop!  
Do not over listen.

If you must listen  
again for ideas, ok. But  
no more than twice...

Estimate how long  
each action will take.

How long will every  
action on your list  
take to complete?

Make a hard deadline.

Based on your estimates  
& available time, when  
will you get it done?

DO IT!

Use a countdown  
timer to stay on  
course.

Have you got a heap of unfinished music?  
Here's how to avoid wasting any more time  
on tracks you're stuck on:
