

The first of its kind, Wings of Time is the only permanent night show in the world set in the open sea. Set against a signature backdrop and a larger-than-life water screen, audiences can look forward to a contemporary storyline weaved together with an epic experiential fusion of the latest multimedia effects, including 3D projection mapping, state-of-the-art lasers, robotic water fountains and giant water jets, pyrotechnics. Created and produced by a team of local and international entertainment experts, Wings of Time is a night extravaganza of majestic proportions that is bound to captivate and wow every guest.

The adventure begins with Shahbaz, a pre-historic bird-like creature. Together with his friends, Rachel and Felix, they travel across beautiful landscapes and the mysteries of time. Their journey brings them through artistic interpretations of the British Industrialisation Revolution, the Silk Road era, Mayan Pyramids, Underwater World and African Savanna. His friends discover more about themselves - they find the courage to be more than who they think they were. At journey's end, will Shahbaz find home? Will a boy and girl find true friendship?
