Recommendation 2.7

1. Board has overall responsibility in ensuring that there is a group-wide policy and system governing related party transactions (RPTs) and other unusual or infrequently occurring transactions.

   Compliant

   Per Company’s Manual on Corporate Governance, the Board of Directors has the duty to ensure that there is a group-wide policy and system governing related parties and Related Party Transactions (RPT), particularly those which pass a certain threshold of materiality. In 2017, the Board of Directors approved the Company’s RPT Policy, and created the RPT Committee to ensure that all RPTs are (i) at arm’s length in accordance with transfer pricing rules; (ii) fair, or are based on market practices, and (iii) inure to the best interests of the Company and its shareholders. The RPT Policy also establishes a particular level of reporting and approval process for RPTs that pass a certain threshold of materiality.

2. RPT policy includes appropriate review and approval of material RPTs, which guarantee fairness and transparency of the transactions.

3. RPT policy encompasses all entities within the group, taking into account their size, structure, risk profile and complexity of operations.

The new rule focuses and regulates only material RPTs or RPTs amounting to ten percent (10%) or higher of a company’s total assets. The new rule also specified an approval process for material RPTs and mandated publicly-listed companies to notify the SEC of their RPTs that breach the threshold. In 2020, the Company did not enter into any material RPTs and there were no reported cases of non-compliance with the laws, rules and regulations pertaining to material RPTs. *Provide information on voting system, if any.*

| Non-Compliant | The Company has adopted the statutory shareholder voter protection requirements under the Revised Corporation Code and the PSE and SEC rules. These require either supermajority vote or majority of minority vote on certain transactions. In addition, all shareholders of the Company are entitled to the exact same voting rights. In addition, the Board has created the RPT Committee composed entirely of Independent Directors. The Company’s RPT Policy also sets out clear guidelines as to the manner in which RPTs are presented to the RPT Committee and the transactions that require action on the part of the RPT Committee. Finally, the Company also presents all Board and Company actions (including all RPTs) for ratification at each annual shareholders meeting. In 2019, the Company has adopted the Revised RPT Policy in compliance with SEC Memorandum Circular No. 10 series of 2019. The new rule outlined the required reporting and approval process for material RPTs or RPTs amounting to ten percent (10%) or higher of a company’s total assets, which includes the ratification by the stockholders representing 2/3 of the Company’s outstanding capital stock |

Lastly, the RPT Committee ensured that RPTs falling below the SEC-defined materiality threshold are coursed through the appropriate levels of review, reporting, and/or approval process.

The Company believes that these measures provide sufficient protection to the interests of minority shareholders insofar as related-party transactions are concerned.

An integral part of the Company’s risk management discipline is a clear understanding of its key risks, the consistent execution of activities to address them and continuous improvement of the Risk Management program.

Part of the governance of Risk Management is the regular review of the Risk Management Plans of all its business units. This is being conducted at least twice a year across the Group for Strategic Risks, while for Operational Risks, the business units have a more frequent review of their risk management plan.

Risk management was also integrated into the strategic planning process, wherein risks are also identified especially for those areas that could have an impact on the strategic objectives set by the Company. The Risk Management Team has also started to integrate Environment, Social and Governance (ESG) in the risk assessment process, including enhancement of business continuity plans to make sure climate change related risks are properly mitigated.
