Item 9: Other Matters

Aboitiz Equity Ventures Inc. ("AEV" or "the Company") recorded consolidated net income of ₱7.9 billion (bn) for the second quarter of 2022, a 60% increase from the ₱4.9 bn reported during the corresponding period in 2021. The Company recognized non-recurring gains of ₱2.0 bn during the period, primarily due to foreign exchange gains from the revaluation of dollar-denominated assets, compared to the ₱49 million (mn) in non-recurring gains for the corresponding period in 2021. Without these one-off gains, the Company's core net income for the second quarter of 2022 was ₱5.9 bn, a 21% increase year-on-year (YoY). For the relevant period, AEV recorded consolidated earnings before interest, tax, depreciation and amortization (EBITDA) of ₱19.8 bn, which was 38% higher YoY.
On a year to date (YTD) basis, AEV’s net income for the first half of 2022 was ₱11.8 bn, 12% lower than the ₱13.5 bn recorded during the same period in 2021. The Company recognized non-recurring gains of ₱2.7 bn, primarily due to foreign exchange gains from the revaluation of dollar-denominated assets, compared to the ₱169 mn in non-recurring losses recorded during the same period in 2021. Without these one-off losses, AEV’s core net income for the first half of 2022 was ₱9.1 bn, a 33% decrease YoY. AEV recorded consolidated EBITDA of ₱32.7 bn during the first half of 2022, relatively flat from the ₱32.8 bn recorded in the same period in 2021.

As part of its transformation strategy, AEV’s ownership (and therefore share in earnings) in Aboitiz Power Corporation (“AboitizPower”) declined from 77% to 52% effective end of 2021, as a result of its strategic partnership with JERA Asia Private Limited (“JERA”), and this was reflected in the results for the first half of 2022. If AEV retained the same ownership of AboitizPower and removed the extraordinary trading gains realized by Union Bank of the Philippines (“UnionBank”) in 2021, core net income would have been higher by 19% compared to the same period in 2021.

Power accounted for 52% of the total income contributions from AEV’s Strategic Business Units (SBU) during the first half of 2022, while Financial Services accounted for 31%. Income contributions from Real Estate, Infrastructure, and Food SBUs were at 12%, 4%, and 2%, respectively.

“We ended the first half of 2022 with our Great Transformation well underway, with a new Chief Transformation Officer leading a strong governance network of leaders overseeing our cultural, technological, operational, and ultimately financial transformations. From an investor’s standpoint, our primary objective is to make sure these transformations produce a ‘techglomerate premium’ wherein the synergy between all the Group’s components is strengthened to the point where the Group as a whole becomes much more valuable than the sum of its parts, such that in the overall outcome we become a top choice in our stakeholders’ ecosystem,” said Aboitiz Group President and CEO Sabin M. Aboitiz.

**Strategic Business Units**

*Power*

AboitizPower’s income contribution to AEV for the first half of 2022 amounted to ₱5.2 bn, 34% lower than the ₱7.8 bn recorded in the first half of 2021.

On a stand-alone basis, AboitizPower’s net income for the first half of 2022, was ₱10.0 bn, 2% lower than the ₱10.1 bn recorded in the same period of 2021. AboitizPower also recognized non-recurring gains of ₱792 million (mn) during the period, primarily due to gains on Therma Luzon Inc.’s hedge and the appreciation of US dollars versus the ₱5 mn in non-recurring gains recorded during the same period in 2021. Without these one-off gains, AboitizPower’s core net income for the first half of 2022 was ₱9.2 bn, 9% lower than the ₱10.1 bn recorded in the same period of 2021. If AboitizPower excluded the impact of liquidated damages, business interruption claims, and Typhoon Odette, the first half of 2022 would have resulted in a 15% gain in core net income and a 23% gain in consolidated net income compared to the same period in 2021. This was primarily due to fresh contributions from GNPower Dinginin (GNPD) Units 1 and 2, higher availability of the GN Power Mariveles Energy Center Ltd. Co. (GMEC) facility, timing windfall on the account of higher indices and higher water inflows.
For the first half of 2022, the income contribution from the generation and retail electricity supply businesses, which accounted for 87% of total income contribution from AboitizPower’s business segments, totaled ₱10.7 bn, 6% higher YoY. Consolidated EBITDA for the generation and retail electricity supply business was ₱23.1 bn during the first half of 2022, 13% higher than the ₱20.5 bn recorded during the corresponding period in 2021. As discussed above, this was primarily due to fresh contributions from GNPD Units 1 and 2, higher availability of the GMEC facility, timing windfall from higher indices, and higher water inflow. Capacity sold in the first half of 2022 increased by 5% to 3,785 megawatts (MW), compared to 3,600 MW for the same period in 2021. Energy sold increased by 17% to 13,762 gigawatt-hours (GWh) for the first half of 2022, compared to 11,790 GWh for the corresponding period in 2021.

AboitizPower’s distribution business recorded an income share of ₱1.5 bn for the first half of 2022, a 34% decrease YoY, which accounted for 13% of income contributions from AboitizPower’s business segments. Consolidated EBITDA for the distribution business in the first half of 2022 was ₱3.0 bn, 27% lower YoY. This was driven by delayed pass through of higher generation charges. Energy sales increased by 1% to 2,778 GWh for the first half of 2022, compared to 2,745 GWh for the same period in 2021. Energy sales from the Residential customer segment decreased by 1% due to lower consumption because of Typhoon Odette and the cooler weather. Commercial and Industrial energy sales were higher by 2% due to recovering demand.

**Banking & Financial Services**

UnionBank’s (or “the Bank”) income contribution to AEV in the first half of 2022 amounted to ₱3.1 bn, 26% lower than the ₱4.2 bn recorded in the first half of 2021.

On a stand-alone basis, UnionBank and its subsidiaries recorded net income of ₱6.0 bn in the first half of 2022, 27% lower YoY. This was due to extraordinary trading gains recorded in the first half of 2021. Meanwhile, net revenues (ex-trading) grew to ₱21.8 bn in the first half of 2022, 26% higher YoY. Net interest income grew to ₱17.0 bn, 15% higher YoY, due to higher earning assets and sustained margins. Fees and other income grew to ₱4.8 bn, on the other hand, on the back higher fees from digital transactions.

Loan loss provisions were recorded at ₱1.6 bn, 49% lower YoY and non-performing loans (NPL) ratio improved to 4.9% as of end June 30 2022.

UnionBank’s earnings performance for the first half of 2022 resulted in a return on equity of 10.7%, a return on assets of 1.4%, and a cost-to-income ratio of 55.5%.

As of June 30, 2022, UnionBank’s total assets amounted to ₱874.9 bn, 19% higher YoY. Total loans and receivables are up 13% to ₱381 bn, while total deposits are 12% higher at ₱555 bn.

**Food**

AEV’s non-listed food subsidiaries’ (Pilmico Foods Corporation, Pilmico Animal Nutrition Corporation, and Pilmico International Pte. Ltd. - which includes Gold Coin Management Holdings Pte. Ltd.) income contribution to AEV amounted to ₱194 mn
in the first half of 2022, 84% lower than the ₱1.2 bn recorded in the same period in 2021. Despite the commodity headwinds, the food group recorded an EBITDA of ₱3.1 bn, 23% higher YoY due to margin recoveries from its Agribusiness, Farms and Commodity Trading segments.

The Food and Nutrition segment, which consists of the flour, farms, meats, and trading divisions, recorded a net income of ₱166 mn in the first half of 2022, 71% lower YoY. The decrease was primarily due to lower taxes recognized for its farm division in the same period last year from tax adjustments pertaining to its 2020 Income Tax Holiday incentives, the Flour division’s weaker margins and higher foreign exchange losses due to the depreciation of the Philippine Peso against the US Dollar impacting its USD denominated payables from raw material purchases.

The Agribusiness segment, which consists of the regional animal nutrition businesses (feed, petfood, and specialty nutrition), reported a net loss of ₱167 mn in the first half of 2022, 128% lower YoY. The decrease was due to the recognition of unrealized foreign exchange losses from the devaluation of the Sri Lankan Rupee and Goodwill impairment of its Sri Lanka and Thailand operations. Excluding the one-off events from the Thailand and Sri Lankan Operations, the food group would have recorded a net income of ₱1.3 bn, 5% higher YoY.

Real Estate

AEV’s non-listed real estate businesses, consisting of Aboitiz Land, Inc. (“AboitizLand”) and its subsidiaries and Lima Land, Inc. reported a consolidated net income of ₱1.2 bn in the first half of 2022, 212% higher than the ₱385 mn recorded in the same period in 2021. AboitizLand contributed ₱3.0 bn in revenues for the first half of 2022, 68% higher than revenue contributions in the same period in 2021. The residential business segment had the largest contribution to overall revenue at 52% while the commercial and industrial segment contributed 48%. The residential business had a significant increase in its revenue contribution year-on-year due to increased construction activity and significant positive site accomplishments in a number of projects.

Infrastructure

For the Infrastructure group, Republic Cement & Building Materials, Inc.’s income contribution to AEV in the first half of 2022 amounted to ₱177 mn, 87% lower than the ₱1.3 bn income recorded in the first half of 2021. This was primarily due to lower market demand for cement due to increases in the prices of steel and other construction materials, pre-election construction ban and post-election transition. Republic Cement also benefited in 2021 from a one-time gain brought about by the CREATE bill which reduced its deferred tax liabilities.

Financial Condition

As of June 30, 2022, the Company’s consolidated assets totaled ₱747.3 bn, a 2% increase from end-2021’s ₱733.6 bn. Cash and cash equivalents stood at ₱74.0 bn, 50% lower than the ₱147.5 bn as of end-2021. Consolidated liabilities totaled ₱410.5 bn, a 1% increase from the year-end 2021 level of ₱405.8 bn, while equity attributable to equity holders of the parent increased by 1% to ₱247.9 bn. AEV’s current ratio as of June 30, 2022 stood at 2.0x while its net debt-to-equity ratio was 0.7x.
