STAMPS
Aboitiz Equity Ventures, Inc. (AEV or the “Company”) recorded consolidated net income of P5.3 billion (bn) for the second quarter of 2018, which was 6% lower than the P5.6 bn recorded for the same period last year. The Company recognized non-recurring losses of P42 million (mn) during this period, versus last year’s losses of P53 mn, representing net foreign exchange losses recognized on the restatement of dollar-denominated net debt. Without these one-off losses, the Company’s core net income for the second quarter of 2018 was 6% lower year-on-year (YoY), decreasing from P5.6 bn to P5.3 bn. For the relevant period, AEV recorded consolidated earnings before interest, tax, depreciation and amortization (EBITDA) of P14.1 bn, a 6% increase from the P13.3 bn recorded last year.
On a year-to-date (YTD) basis, AEV’s net income for the first half of 2018 was P10.1 bn, 2% lower than the P10.3 bn recorded last year. The Company recognized non-recurring losses during the period of P467 mn, versus last year’s losses of P495 mn, representing net foreign exchange losses. Without these one-off losses, AEV’s core net income was 2% lower YoY, decreasing from P10.8 bn to P10.6 bn. AEV recorded a consolidated EBITDA of P28.0 bn during the first half of 2018, which was an 8% increase from the P26.0 bn recorded last year.

The Power Strategic Business Units (SBU) accounted for 68% of the total income contributions from the Company’s SBUs during the first half of 2018, while income contributions from the Financial Services, Food, Real Estate, and Infrastructure SBUs during the period amounted to 22%, 6%, 3%, and 1%, respectively.

**Strategic Business Units**

**Power**

Aboitiz Power Corporation’s (AboitizPower) net income contribution to AEV during the first half of 2018 decreased by 6% YoY, from P7.5 bn to P7.0 bn.

On a stand-alone basis, AboitizPower’s core net income for the first half of 2018 remained flat YoY at P10.5 bn. It recognized non-recurring exchange losses of P1.4 bn during the period, versus last year’s losses of P744 mn, arising from the restatement of dollar-denominated debts, which was worsened by the continued weakening of the peso. Taking into account these one-off losses, AboitizPower’s net income for the first half of 2018 amounted to P9.1 bn, 6% lower YoY.

The generation and retail supply businesses accounted for 80% of the income contribution from AboitizPower’s business segments, recording a 2018 first half income share of P8.5 bn, which was 8% lower compared to last year. When adjusted for non-recurring items, the generation business recorded a core net income of P9.4 bn for the first half of 2018, 2% lower YoY. Its first half consolidated EBITDA was also higher at P20.2 bn, a 9% increase YoY, resulting from fresh EBITDA contribution from Pagbilao Energy Corporation (PEC). Higher contracting levels versus last year also contributed to the higher EBITDA. These upsides were partially offset by the lower contributions coming from AboitizPower’s hydro plants due to lower hydrology during the period.

AboitizPower’s capacity sold for the period increased 8% YoY, from 3,086 megawatts (MW) to 3,319 MW, driven by new capacities sold from PEC and higher contracting levels.

The distribution business accounted for 20% of the income contribution from AboitizPower’s business segments and recorded a 2018 first half income share of P2.1 bn for 2018, 14% higher compared to the previous year. Attributable sales for this period amounted to 2,719 gigawatt-hours (GWh), up 7% from last year’s 2,546 GWh. This was a result of increased consumption across all customer segments and supported by an increase in residential customers.

**Banking & Financial Services**

Union Bank of the Philippines’ (UnionBank or the “Bank”) income contribution to AEV for the first half of 2018 increased by 9% YoY, from P2.1 bn to P2.3 bn.

On a stand-alone basis, UnionBank and its subsidiaries posted a net income of P4.7 bn for the first half of 2018, up 9% from the P4.3 bn earned in the same period last year.

Overall, the Bank’s earning performance during the period resulted in a Return on Equity (ROE) and Return on Assets (ROA) of 12.7% and 1.6%, respectively. UnionBank also posted an above-industry cost-to-income ratio of 57.2% for the first half of 2018.
As of end-June 2018, UnionBank’s total resources grew by 13% to ₱624.9 bn, primarily driven by the robust expansion of total loans and other receivables by 19% to ₱314.6 bn. The Bank’s loan portfolio continues to be well-diversified, with customer loans accounting for more than one-third of total loans.

As of June 2018, the Bank’s capitalization remained well-above regulatory minimum with a total capital adequacy ratio of 13% and Common Equity Tier 1 ratio of 11%.

**Food**

AEV’s non-listed food subsidiaries (Pilmico Foods Corporation, Pilmico Animal Nutrition Corporation and Pilmico International Pte. Ltd.) reported net income of ₱662 mn for the first half of 2018, 8% lower than the ₱717 mn recorded last year.

Feeds Philippines reported first half net income of ₱209 mn, a 26% drop compared to same period last year. This was due to the higher costs of feeds ingredients coupled with the change in the feeds sales mix to low-margin lines. Flour’s first half net income decreased 56% YoY to ₱60 mn due to higher wheat prices, which was worsened by the continued depreciation of the peso. Farms, however, reported a 30% YoY increase in its first half net income to ₱294 mn on the back of increased margins and volume.

Pilmico International recorded a net income of ₱5 mn, a 92% slide from last year. This was a result of higher start-up costs in light of the recent acquisition of an animal feedmill in Vietnam, and was worsened by decreasing margins that offset growth in volume.

**Real Estate**

AEV’s real estate segment (AboitizLand) (which is comprised of 100%-owned AboitizLand, other 100% and majority-owned subsidiaries, and a joint venture) reported net income of ₱283 mn during the first half of 2018, 40% higher than the ₱202 mn recorded last year.

Revenues for the first half of 2018 totaled ₱2.0 bn, a 30% increase from the same period last year. This was primarily due to the industrial business having recognized substantially more hectares sold during the first six months of 2018 compared to the same period last year. In addition, maintaining the level of operating expenses similar to that of the previous year allowed the top-line contributions from the industrial, residential, and commercial business units to achieve net income of ₱283 mn for the period, 40% higher than last year.

Of AboitizLand’s total revenue during the period, the residential business unit contributed 28% and the industrial business unit accounted for 68%. The commercial business unit and others contributed the remaining 4%. These revenue contributions amounted to ₱550 mn, ₱1.3 bn, and ₱80 mn, respectively.

**Infrastructure**

For the infrastructure group, Republic Cement and Building Materials, Inc.’s income contribution to AEV for the first half of 2018 decreased 91% YoY, from ₱494 mn to ₱44 mn. Although prices grew modestly with demand remaining from the previous quarter, this was offset by increased fuel and power costs during the period.

**Financial Condition**

As of June 30, 2018, the Company’s consolidated assets totaled ₱504.8 bn, a 3% increase compared to the year-end 2017 level of ₱492.2 bn. Cash and cash equivalents stood at ₱61.1 bn, 6% lower than the year-end 2017 level of ₱64.9 bn. Consolidated liabilities totaled ₱309.7 bn, a 3% increase compared to the year-end 2017 level of ₱299.7 bn, while Equity Attributable to Equity Holders of the Parent increased by 3% to ₱159.4 bn. The Company’s current ratio as of June 30, 2018 stood at 1.7x, while the net debt-to-equity ratio was at 1.0x.
