Item 9: Other Matters

Abotitz Equity Ventures, Inc. (AEV or the “Company”) recorded a consolidated net income for the first quarter of 2017 of P4.8 billion (bn), 3% higher than the P4.7 bn recorded for the same period last year. The Company recognized non-recurring losses of P424 million mn, versus last year’s losses of P442 mn, representing net unrealized foreign exchange losses recognized on the restatement of consolidated dollar-denominated debts and money market placements. Without these one-off losses, the Company’s core net income for the quarter was 3% higher year-on-year (YoY), increasing from P5.1 bn to P5.2 bn. AEV also recorded an increase of 9% YoY in its consolidated earnings before interest, tax, depreciation and amortization (EBITDA), from P12.7 bn to P13.9 bn.

Power accounted for 64% of the total income contributions from the Company’s Strategic Business Units (SBUs) for the first quarter of the year, while the income contribution of the Financial Services, Food, Real Estate, and Infrastructure SBUs were at 30%, 6%, 1%, and -2%, respectively.
Strategic Business Units

Power

Aboitiz Power Corporation’s (AboitizPower) net income contribution to AEV during the first quarter of 2018 decreased by 9% YoY, from P3.4 bn to P3.1 bn.

On a stand-alone basis, AboitizPower recorded a 4% YoY increase in its core net income for the first quarter of 2018, from P5.0 bn to P5.2 bn. It recognized unrealized foreign exchange losses of P1.2 bn during the period (versus last year’s losses of P577 mn) on its dollar-denominated debts, triggered by the substantial weakening of the peso. Taking into account these one-off losses, AboitizPower’s first quarter net income for 2018 was P4.0 bn, 9% lower YoY.

The generation and retail electricity supply business accounted for 79% of the income contribution from AboitizPower’s business segments, recording a first quarter income share of P3.8 bn for 2018, 7% lower compared to the same period last year. When adjusted for non-recurring items, the generation business registered a 2% YoY increase in its first quarter core net income to P4.0 bn. Its first quarter consolidated EBITDA was also higher by 12% at P10.1 bn, attributable to higher EBITDA from the addition of Pagbilao Energy Corporation (PEC), higher availability of GN Power-Mariveles Coal Plant Ltd. Co., and higher contracting levels at our retail electricity suppliers despite the lower hydrology experienced by the Company’s hydro units.

For the first quarter, AboitizPower’s capacity sold increased by 22% YoY, from 2,630 megawatts (MW) to 3,215 MW. This was primarily driven by the new capacity of PEC and an increase in the number of contracts in place compared to the same period last year.

The distribution business’ income share for the first quarter of 2018 increased by 9% YoY, to P992 mn, and accounted for 21% of AboitizPower’s income contribution. The power distribution group’s attributable sales for this period totaled 1,298 gigawatt-hours, a 7% increase from the same period in 2017.

Banking & Financial Services

Union Bank of the Philippines’ (UnionBank or the “Bank”) first quarter income contribution to AEV increased by 32% YoY, from P1.1 bn to P1.4 bn.

On a stand-alone basis, UnionBank and its subsidiaries recorded a net income of P2.9 bn for the first quarter of 2018, an increase of 33% compared to the P2.2 bn earned during the same period in the previous year. This resulted from the robust YoY net revenue growth of 22% to P6.9 bn.

Overall, the earnings performance of the Bank translated to a Return on Equity and Return on Assets of 15.9% and 2.0%, respectively. UnionBank also maintained its focus on effectively managing costs and, as a result, posted an above-industry cost-to-income ratio of 50.6%.

As of end-March 2018, UnionBank’s total resources rose by 17% to P608.4 bn from P518.7 bn as of the end of the previous year. Total loans and other receivables expanded by 16% to P293.1 bn by the end of the first quarter of 2018. The Bank’s loan portfolio remained well-diversified, with consumer loans accounting for more than one-third of total loans. Deposit liabilities likewise recorded a 9% growth from end of last year to P439.6 bn.

As of end-March 2018, UnionBank’s capitalization remained healthy, with a total capital adequacy ratio of 14.2% and Common Equity Tier 1 ratio of 12.0%.
Food

AEV’s non-listed food subsidiaries (Pilmico Foods Corporation, Pilmico Animal Nutrition Corporation and Pilmico International Pte. Ltd.) reported a net income of ₱264 mn for the first quarter of 2018, 10% lower than 2017’s ₱292 mn.

Feeds Philippines and Flour reported a drop in net income contributions during the first quarter of 2018, largely driven by the higher cost of raw materials and operating expenses. Feeds Philippines’ bottomline weakened by 40% in the first quarter of 2018 to ₱67 mn due to the rise in raw materials cost, as well as the change in sales mix dragged by low-margin lines. Flour’s net income plunged 73% YoY to ₱24 mn for the first quarter of 2018 due to the higher market price of wheat which was further aggravated by the weaker peso. Farms’ first quarter net income increased 58% YoY to ₱127 mn on the back of sustained high selling prices, largely driven by low market supply due to diseases prevalent in the backyard segment, and was boosted by higher sales volumes on the back of Pilmico’s continued farm expansion. Meanwhile, Pilmico International’s income declined by 45% during the first quarter of 2018 to ₱4 mn due higher start-up costs relating to the acquisition in late 2017 of an animal feedmill in Vietnam.

Real Estate

AEV’s real estate segment (AboitizLand), which is comprised of 100%-owned AboitizLand, other 100% and majority-owned subsidiaries, and a joint venture, reported a net income of ₱59 mn for the first quarter of 2018 - a decrease of 18% from the same period in 2017. The significant decrease was due to increased borrowing expenses to fund project development.

Net Operating Profit for the first quarter of 2018 was up 5% from the same period in 2017. This was primarily attributable to higher profit and revenue contributions from the industrial business unit, which recognized twice as many hectares sold compared to the previous year. Additionally, construction progress in existing residential developments and healthy occupancy levels from the commercial assets also contributed to AboitizLand’s performance for the period.

Of AboitizLand’s ₱740 mn revenue in the first quarter of 2018, the residential business unit contributed 40% (₱296 mn), the industrial business unit 55% (₱406 mn), the commercial business unit and others 5% (₱38 mn). For the first quarter of 2018, residential sales totaled ₱620 mn – an increase of 5% from the previous year – driven primarily by House and Lot products such as Seafort Residences (Luzon) and Amaia (Cebu).

Infrastructure

From the infrastructure group, Republic Cement and Building Materials, Inc.’s income contribution to AEV decreased 140% YoY from ₱202 mn in net income in the first quarter of 2017 to a net loss of ₱82 mn for the same period in 2018. This was mainly due to energy input costs, which were higher compared to the costs during the same period last year.

Financial Condition

As of March 31, 2018, the Company’s consolidated assets amounted to ₱505.3 bn, reflecting a 3% increase as compared to the year-end 2017 level of ₱492.2 bn. Cash and cash equivalents stood at ₱71.6 bn, 10% higher than the year-end 2017 level of ₱64.9 bn. Consolidated liabilities amounted to ₱316.2 bn, a 6% increase compared to the year-end 2017 level of ₱299.7 bn, while Equity Attributable to Equity Holders of the Parent decreased by 2% to ₱153.5 bn. The Company’s current ratio as of March 31, 2018 stood at 1.6x, while net debt-to-equity ratio was at 1.0x (compared to year-end 2017’s 1.0x).

AEV first quarter net income up 3%

Aboitiz Equity Ventures, Inc. (AEV) grew its first quarter consolidated net income by 3% to ₱4.8 billion from ₱4.7 billion last year due to lower one-off losses representing net unrealized foreign exchange losses.

Power accounted for 64% of total income contributions, followed by Banking & Financial Services (30%), Food (6%), Land (1%), and Infrastructure (-2%).

“Our diversified portfolio gives us the resilience to sail through varying business cycles. The underlying strength of our core operations and a vibrant economy keep us optimistic on our long-term fundamentals,” Erramon I. Aboitiz, AEV President and Chief Executive Officer, said.

Aboitiz Power Corporation’s net income contribution to AEV decreased by 9% YoY from ₱3.4 billion to ₱3.1 billion, even as core net income rose by 4% to ₱5.2 billion from ₱5 billion, due to higher unrealized foreign exchange losses.

Meanwhile, Union Bank of the Philippines’ first quarter income contribution to AEV increased by 32% YoY, from ₱1.1 billion to ₱1.4 billion, driven by higher revenues.

Pilmico Foods Corporation and its subsidiaries reported a net income of ₱264 million for the first quarter of 2018, 10% lower than 2017’s ₱292 million, due mostly to the higher cost of raw materials and operating expenses.

Aboitiz Land, Inc. and other subsidiaries reported a net income of ₱59 million for the first quarter of 2018, down 18% YoY due to increased borrowing expenses for the funding of developments.

On the other hand, Republic Cement and Building Materials, Inc.’s income contribution to AEV decreased 140% YoY from a ₱202 million net income to a net loss of ₱82 million, mainly due to energy input costs, which were higher compared to the same period last year.
