

## BODYPERFECT

Recommends  
MERIDIAN THERAPY SLIMMING (MTS)  
FULL-BODY TREATMENT

# East Meets West

BodyPerfect's Meridian Therapy Slimming programme combines techniques from Traditional Chinese Medicine (TCM) and conventional science for toning and weight reduction.

**M**any slimming centres focus on using either Traditional Chinese Medicine (TCM) or weight-loss technology. BodyPerfect, on the other hand, combines both techniques to come up with their unique treatments.

The weight management and wellness centre, which has six branches in Singapore, has a treatment called Meridian Therapy Slimming (MTS). It's said that MTS can be used to achieve your weight-loss goals.

One method employed by BodyPerfect is to target one problem area at a time. It starts with radio frequency therapy, which is said to destroy fat cells in problem areas. This is followed by cupping and a detoxing massage. It takes around 40 minutes to treat one area and costs \$128.

If you want an all round trimmer silhouette, you can try the full-body treatment, which starts with a compression bandage and ceramic thermal wrap. The treatment lasts 70 minutes and costs \$288.

BodyPerfect has branches at Junction 10, Liat Towers, Parkway Parade, Toa Payoh, Westgate and Yishun. For more information, visit [www.bodyperfect.com.sg](http://www.bodyperfect.com.sg).
