In a statement, **Mr. Gopal Vittal, MD and CEO, India & South Asia**, said:

“Airtel's revenue growth in India has continued to accelerate. Revenue growth of 12.6% in Q3 is the highest in 9 quarters. We remain focused on driving topline through stepped up customer acquisitions with continued focus on churn, ensuring pricing stability, and path-breaking innovations in mobile data. Our mobile data growth is at 74.3% in Q3. On the regulatory front, the industry has welcomed the announcement of the timetable for the spectrum auctions in March 2015”.

In a statement, **Mr. Christian de Faria, MD and CEO, Africa**, said:

“Airtel has continued to grow in Q3 despite economic turmoil in several commodity-rich countries, consequent to a sharp slide in crude oil and metal prices. We have maintained our focus on growing customer base and topline in a cost-efficient manner. Significant depreciation in most African currencies especially the Nigerian Naira has however depressed the reported results in dollar terms. We are hopeful that the economies and wallet spends will quickly adjust to the new situation”.
