Introducing Website Development Service Featuring an Instant Quote System

Website Development Service for Online Printing Business

IT technology for all printing businesses to enhance from your existing websites or develop a whole new platform.

Launch an online printing platform and adapt an Instant Quote System designed by us.

1

Years of Experience and Knowledge

Developed by professional team with over 10 years of experiences working in the printing industry

2

Optimized for Printing Service

From order, proof, printing to delivery, all processes are shared with customers

3

Precise Price Estimation

Advanced online automatic instant quote system for precise calculation with extreme accuracy for any printing projects

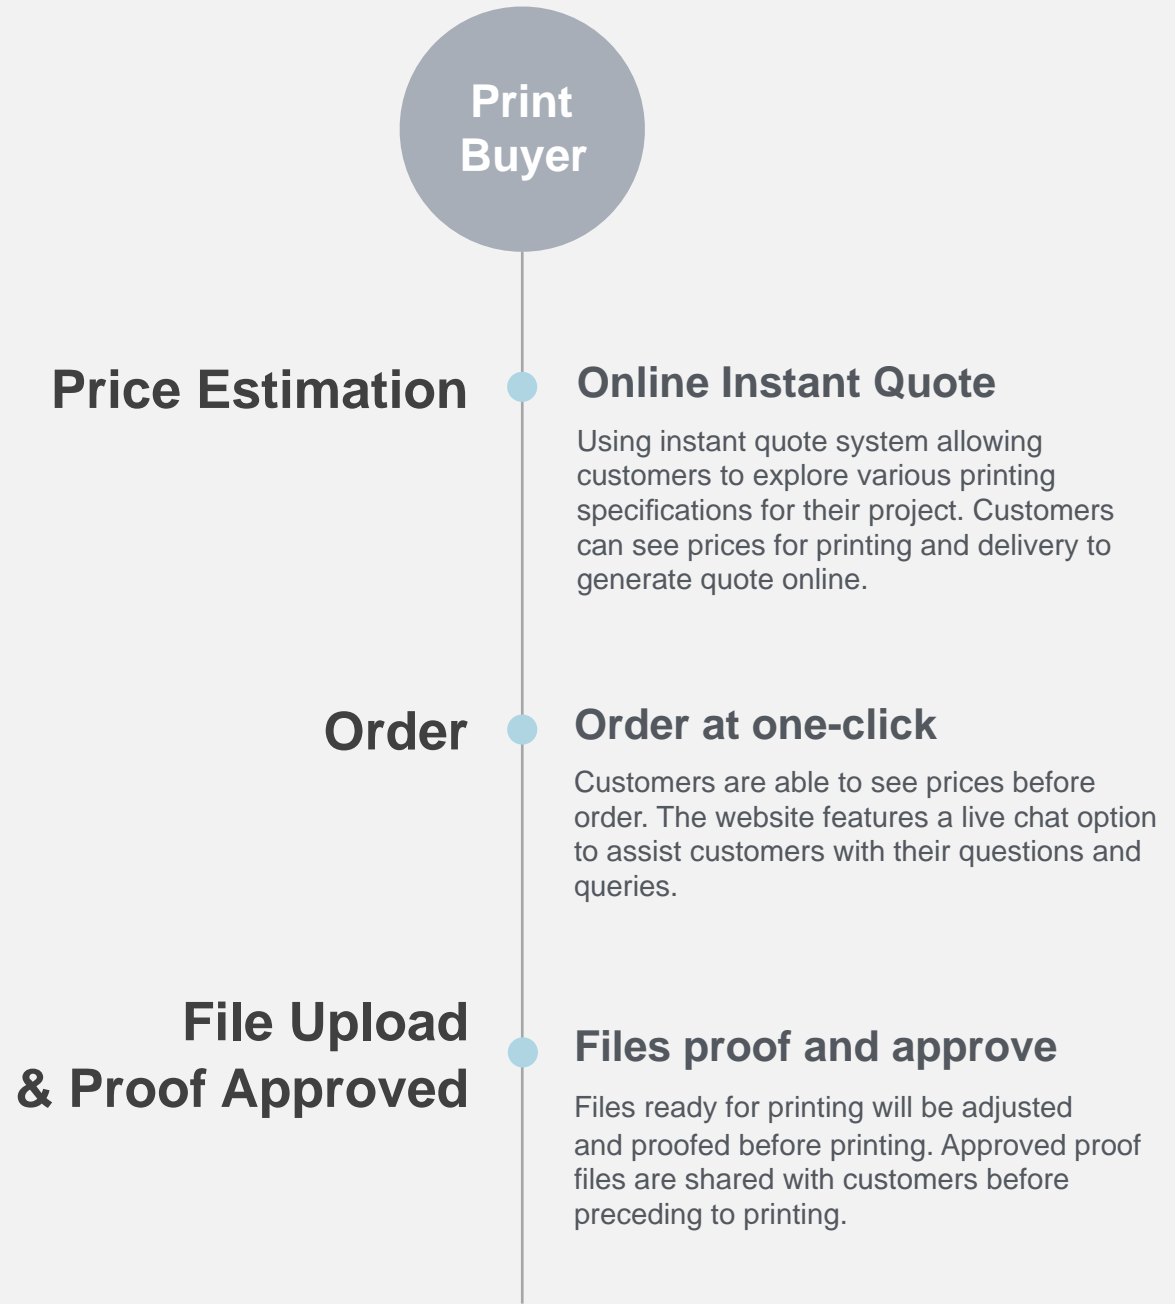

4

Quick Development at Low Cost

Quick development time of 2 months at low cost despite the complications in creating an advanced instant quote system

Post-Website-Development Order Process

Order processes post website development will simplify all processes and single handed online. All order processes can be tracked and viewed between customers and business online.

Payment

Various payment options

Customers are able to select different payment options from PayPal, credit card, wire transfer to make a payment for their order.

Prepress and Printing

Trackable processes for customers

From proof files confirmation to printing, all processes are shared with customers. Customers are able to check their order status in My Account via website.

Delivery

Adapting an Instant Quote System for Book Printing

Adapt and Instant Quote system that features various options for custom printing of different types of books. Customers can add/edit/change paper and setting and instantly check pricing online before order.

Not only this allows room for customization for customers but also saves time and labour for customer handling for printing businesses.

Why our quote system is more accurate than others

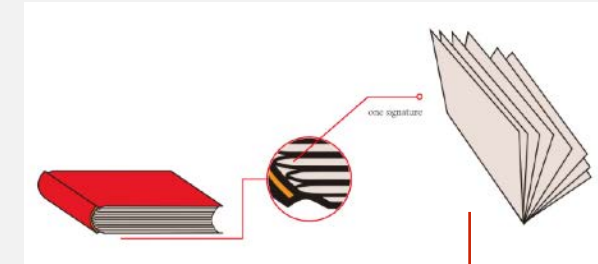

Other Businesses

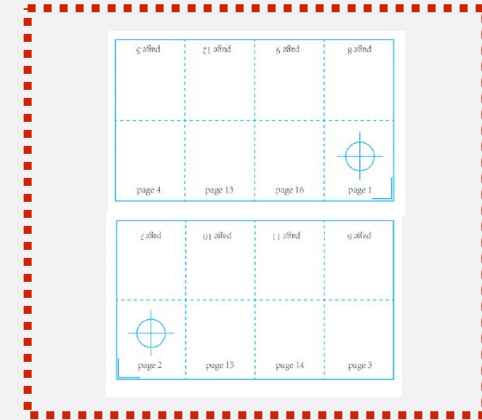

Price Calculation as a whole page

- ▶ Pages calculated as a whole page causing errors and limitations
- ▶ Calculation method common in most businesses
- ▶ Unable to calculate custom size, can only calculate up to 5-6 different sizes
- ▶ Unable to calculate when different text options are added
- ▶ Unable to calculate Case bound book
- ▶ Unable to explore different printing options

Our Quote System

Signature

Price calculation based on signature

- ▶ Allows custom size calculation
- ▶ Unlimited paper options
- ▶ Accurate calculations for different text options / add-on features
- ▶ Accurate calculations for Case bound book
- ▶ Able to calculate different quantity, page count

**Precise calculation of projects
in various custom sizes**

**Waste of paper per signature is
taken into consideration when
calculating quantity of paper to
be used for production**

**Factors such as signature and
paper grain are considered to
determine the size of paper to
be used for production**

**Price determined per signature
i.e. flexible in calculating price
for various customizations and
changes for cover and text**

Unlimited paper options for printing

Unlimited paper options available for the future website in a development. Any type / brand of paper can be added for paper options upon requests.

About Us

Long experiences in the printing industry

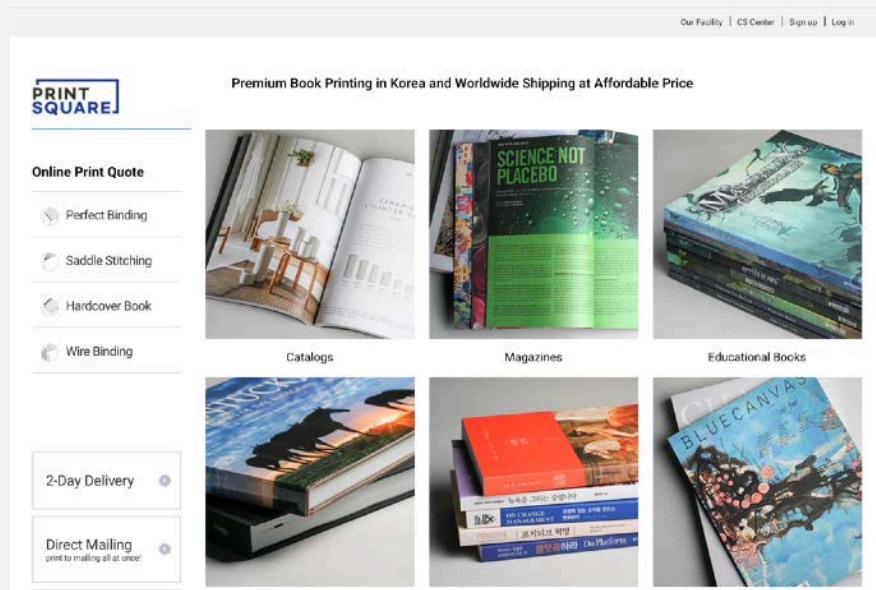

We have over 10 years of experiences in the printing industry. Since the first development of Instant Quote in 2008 and advanced Instant Quote that calculates Hard Cover books, we have been providing our services and products to customers overseas in United States, Australia, Europe, China, etc.

Our HQ is located in South Korea and we're extremely experienced in dealing with international customers with a heavy focus in US market. With our professionalism and knowledge in general printing industry, we offer website development service that is interactive between customers and printing factories.

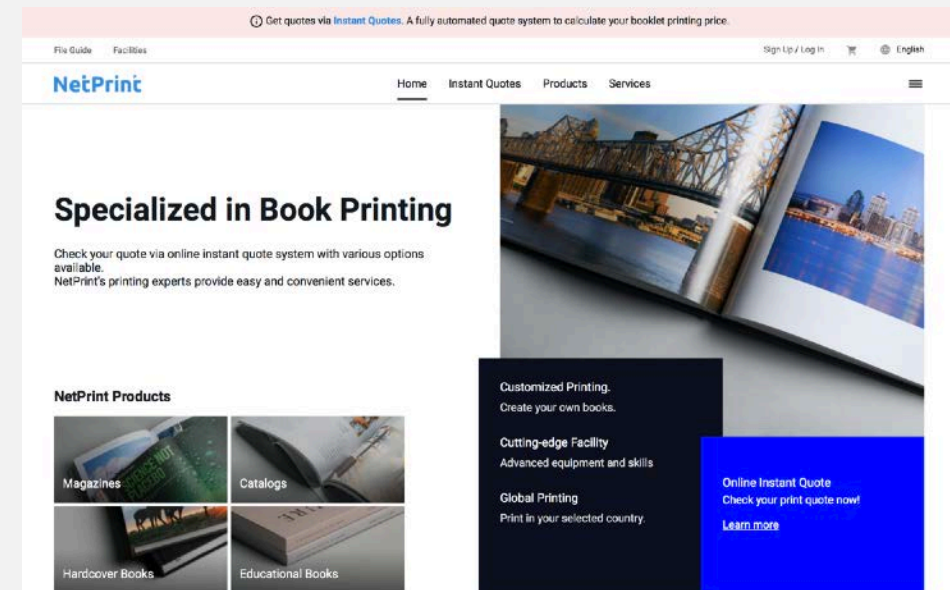

Professional development team

Our development team consists of professional teams dedicated in creating printing service platforms who have been working together since 2008. We're able to develop, design, create professional services and we work with regional partners fluent in Chinese and English to best assist multinational businesses.

Plan & Pricing

Developing a website with an Instant Quote system is costly and time consuming. We develop systems that are extremely unique, accurate, and highly functional unlike other systems in the market.

Developing a printing platform with a highly accurate quote system normally costs around \$200,000. However, with our resources and development team, We offer development cost much lower than the market price.

Website for Book Printing
