

# Case Study: India

## Unrecognized Issuing Authority

### Overview

Two independent Applicants seeking employment as medical professionals at a DataFlow Group client facility in India submitted their academic credentials for verification. The documents, which were provided separately, indicated that the Applicants attended and graduated from 'Mangat Ram University' and 'Sanaatan Gurukul Ved Vishwavidyalaya' respectively.

Following extensive research conducted by the DataFlow Group verification team, it became apparent that both institutions have the same address. Further investigation also revealed that neither 'Mangat Ram University' nor 'Sanaatan Gurukul Ved Vishwavidyalaya' are accredited, approved or recognized by any official government body.

### DataFlow Group Solutions

In order to determine the accuracy and authenticity of the Applicant's documents, the DataFlow Group conducted:

- **Online Research** - The DataFlow Group boasts an expert research team that specializes in the extraction of critical information from worldwide online databases
- **Primary Source Verification** - The DataFlow Group has emerged as the leading international provider to solely focus on background screening and immigration compliance solutions using Primary Source Verification
- **Cross Checking** - The DataFlow Group leverages an expansive network of over 60,000 issuing authorities throughout more than 200 countries and territories to verify the authenticity of various documents
