

Job Announcement

The Prey Veng Documentation Center is looking for a researcher to perform some work related to genocide research and education in Cambodia. The Center prioritizes marginalized communities, grassroots action, and informal education models. These priorities will be illustrated in our work with the Prey Veng Documentation Center, which was a conflict zone between the Khmer Rouge and Vietnam. The Prey Veng Documentation Center (a.k.a., the Khmer Rouge's Eastern Zone Archives) is located over 2 hours driving distance from the capital. While DC-Cam has a long history of grassroots action in the province, this project will stand out in its emphasis on a greater sustainable presence in Prey Veng province. We envision our work to be a model for other former Khmer Rouge controlled zones, particularly ones that formerly received significant support from the PRC.
