HANDHELDS: A FAST GROWING VULNERABILITY

While organizations are embracing mobility to give employees the freedom to work on the move, security of sensitive corporate data residing on these devices becomes an important concern. Mobile theft, confidential data leaks by employees, using corporate phones for personal use are some of the quotidian issues that companies face and lack solution to tackle them

61% of workers report working from outside their offices at least part of the time

1 in **5** organisations report to have suffered a security breach involving a mobile device

37% companies have admitted that there is no real-time visibility of cyberattacks on mobile devices

Data **Resolve**

www.dataresolve.com

IS YOUR CORPORATE DATA SAFE IN A MOBILE ENVIRONMENT?

How do you keep personal and corporate data independent on mobile phones to prevent data transfers to undesirable destinations?

How can you predict and control anomalous behaviour to stop an impending data breach and proactively react to the situation?

Do you have the ability to enforce storage encryption for corporate data incase of mobile thefts or unintentional data leaks?

Do you have the ability to control mobile applications such as disabling bluetooth, Wi-fi, network etc. when in a high security zone?

Data **Resolve**

MOBSEC : AN ALL-ENCOMPASSING SOLUTION FOR MOBILE SECURITY

Mobsec, is a cutting-edge mobile security solution that enables CIOs/CISOs and business owners to manage, monitor and secure remote devices in order to achieve flexible work environment and secure ecosystems. A comprehensive product, it is built on three most powerful pillars of data security:

PREVENT DATA LEAKAGE FROM MOBILE ENDPOINTS

Mobsec fortifies company data on mobile devices while giving the freedom to users to work on the move.

REDUCE OPERATIONAL COSTS WITH MDM

MobSec's Mobile Device Management (MDM) gives you full control to configure settings of all mobile devices in which it is installed. This in turn reduces operational costs while optimizing functionality and security of communications taking place through handheld.

IDENTIFY MALICIOUS BEHAVIOUR PROACTIVELY

Mobsec's multilayered data trapping technology helps in detecting anomalous employee behaviour by separating our strange shifts in otherwise regular behavioural patterns thereby filtering out the false positives and bringing out the most important results for analysis.

CONTROL MOBILE DEVICES WITH MOBSEC'S UNIQUE FEATURES

CONTAINERIZATION

Secure company's intellectual property by using containerization that isolates corporate data from personal data on mobile phones.

COMPATIBLE BUSINESS APPS

Use Mobsec's business specific apps that allows you to open documents, excels, images, presentations and more in a fully secured environment.

CONTROL MOBILE APPLICATIONS

Enable/disable mobile applications such as bluetooth, Wi-Fi, camera etc. in specific locations and stipulated time periods.

DATA ENCRYPTION

Execute safe data transfers by enabling data encryption on mobile phones. Even in case of unintentional mobile theft, data encryption ensures that data is secured.

Data Resolve

MOBSEC CAPABILITIES

DISCOVER
Discover all kinds of sensitive data residing at various places within the organization that can possibly lead to compromise

DETECT
Detect and monitor fragments of sensitive data that are tried to be sent out of the organization via mobile phones to unsolicited viewers

ANALYSE
Analyse every piece of data that is being sent out by your employees through mobile phones based on predefined patterns, keywords or phrases and logic flows

ALERT
Receive Email, SMS and Desktop Notifications based on serious incidents occurring within the network and maintain actionable intelligence about every incident including the system where the crime occurred and who committed the crime
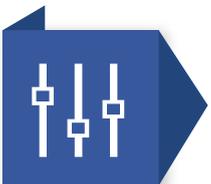

CONTROL
Based on predefined policies, activate MobSec to lock down specific channels or activities if any act of sensitive data exfiltration is detected thereby mitigating damage to the organization

KEY BENEFITS

MORE VISIBILITY ON EMPLOYEE ACTIVITIES

Establish better control over employees who are on resignation notice period and have completely transparency over their activities during this sensitive timeline.

EMBRACE MOBILITY WITH MAXIMUM SECURITY

You worry less about productivity of remote employees, roaming workforce or employees effectively working from their homes. It completely eliminates the concept of out of sight and out of mind. Rest assured, your data stays protected in their laptops.

ENABLE EMPLOYEE FORENSICS

Employee usage statistics can be very beneficial when reviewing employees for performance, productivity, cost, or reprimand.

KEY BENEFITS

WORRY LESS ABOUT LOST CORPORATE DEVICES

MobSec MDM platform will enable security teams to quickly remove confidential corporate information from lost devices, regardless of location.

EMPLOY DISCIPLINED WORKFLOWS

Control and direct what applications are allowed and which are restricted. Remote monitoring of mobile devices will continue to ensure corporate security is not jeopardized by unauthorized apps

ENSURE BETTER COMPLIANCE

MobSec MDM enables security teams to remotely manage passwords to ensure that information is protected at all times.
