

Model GP 02Pro
 Frequency 433 92MHz
 Baud rate 1200bps
 Modulation FSK
 Channel Spacing 12.5k
 Alert tone Volume 85dBa 10cm
 Dimension 100 x 17mm
 Power Supply 1.2V
 Ni-HM AAA
 Battery Life 96hrs

Model GPC 02Pro
 Dimension 100 x 17mm
 Power Supply 5V
 2A adaptor
 Standby Current 5mA
 Charging current 100mA
 each pager

eco

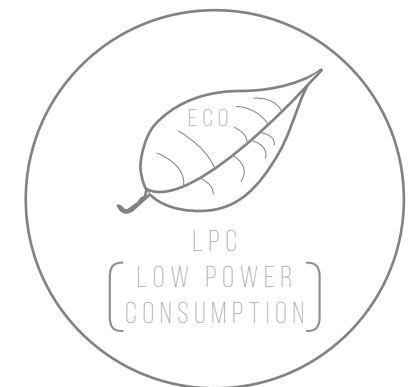

Model ATX 02
 Frequency 433 92MHz
 Baud rate 1200bps
 Modulation FSK
 Maximum Dev +/- 2.5K
 Channel Spacing 12.5k
 Harmonic Radiation less -25dBm
 Frequency Stability 2ppm at -10~
 +60degree celcius
 Output Connector SMA(F)
 Alert tone Volume 85dBa @10cm
 Dimension 120 x 180 x 26.5 mm
 Power Supply 5V
 2A adaptor
 Current Consumption standy 10mA
 transmit 800mA

ANTFi

Guest Paging System

7 Important Features

Beeping

Notify by hearing when they are not holding it

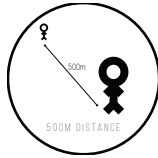

Vibrate

Notify by feeling senses when they are in a noisy environment

Flashing

Notify by seeing when they are not holding it and in a noisy environment

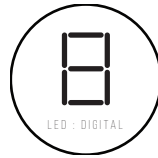

500m Distance

Allow user to roam around the area without worry about them not reachable

Shock/Drop Proof

Enhance the durability of the device so as to prevent the chance of malfunctionality

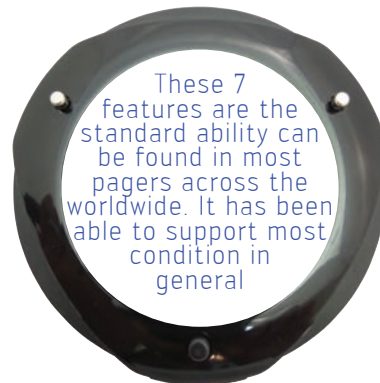

LED Digital

It allows programming of pager number onsite instantly

Unique ID

Prevent interference from other similar user and transfer able to different location

These 7 features are the standard ability can be found in most pagers across the worldwide. It has been able to support most condition in general

7 Unique Features

Low Power Consumption

It saves up to 400percent of electrical usage due to low wattage (kWh) requirement

Long Lasting Usage(standby)

The battery is able to last minimum of 96hrs of usage due to low power consumption

Fast Charging(180mins)

The system is designed with latest nano technology allowing fast speed charging

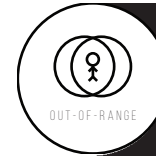

Corrosion Free

The corrosion free coating on the PCB board further extends the pager shelf life more than 5yrs

Auto Reminder

Auto reminds guest to collect their order as well as to return the pager

Out of Range

It keeps the guest stay within the range when they are too faraway from detected distance

Water Resistant

It is designed to resist water in the event of water spills or rain
