

# ELEVATE

## eLearning

Are you looking for an innovative way to educate and inform your supply chain partners?

ELEVATE eLearning provides a scalable, standardized, and cost-effective approach for delivering social and environmental performance training to factories, suppliers, and brands. Our interactive, animated courses incorporate local language voice-overs and graded tests and quizzes, and they are administered through our online learning management system.

### FACTORIES

Provide key skills training to factory supervisors and learn industry best practices for managing health and safety, environmental impact and more.

### SUPPLIERS

Help your suppliers improve their management of social and environmental performance and learn how to better support remediation efforts.

### BRANDS & RETAILERS

Stay up to date on new laws and regulations and learn how your purchasing practices influence working conditions in your supply chain.

### Lesson design benefits

- Dynamic, multilingual and contemporary design to engage users
- Clear and accessible structure to improve knowledge retention
- Scenario-based learning that simulates real life situations
