

Pandanus

This is an evergreen plant with thin, long, variegated golden colour leaves that emerge spirally from stubby branches. These add color and make any space look more vibrant.

Location

indoor

Ease of Care

easy to grow

Light

these can adapt to areas that get partial sunlight and partial shade.

Watering

let the soil dry between waterings. during winter, reduce watering. too much water can kill the plant.

Special Feature

adds color to space

Toxicity

mildly toxic if ingested

Sad Plant Signs

crispy leaf tips:
underwatered, low humidity

yellowing leaves:
overwatered

life is not merely to be alive,
but to be well
