

Fire Flash

Producing intense red shading that convulses into a deep orange, the blooms of the Fire Flash create waves of brilliant color in the garden. They are also the best to create an impressive display in a nice container.

Location

semi-indoor

Ease of Care

easy to grow

Light

they can tolerate medium light conditions. we recommend placing them in partial shade with decent exposure to sunlight

Watering

let the soil dry between waterings. during winter, reduce watering. too much water can kill the plant.

Special Feature

unique appearance

Toxicity

toxic if ingested

Sad Plant Signs

wilting plant or curling leaves:
underwatered

yellowing leaves, black stems:
overwatered

you are worthy, you are enough
