

# Lady Diana

This is an exotic plant that bears vibrant orange flowers, which bloom abundantly all year long. It has long pointed leaves that look similar to that of a banana, they are also shiny green with a red edge. Its ornamental value is enhanced as a potted plant on the patio.

## Location

semi-indoor

## Ease of Care

easy to grow

## Light

they can tolerate medium light conditions. we recommend placing them in partial shade with decent exposure to sunlight

## Watering

let the soil dry between waterings. during winter, reduce watering. too much water can kill the plant.

## Special Feature

decorative plant

## Toxicity

toxic if ingested

## Sad Plant Signs

wilting plant or curling leaves:  
underwatered

yellowing leaves, black stems:  
overwatered

you are beautiful
