

Pedilanthus

A popular, erect succulent, the Pedilanthus has leaves that feature a certain sheen and the zigzag stems add to its beauty. A bright and sunny location makes for the best home for this variety.

Location

semi-indoor

Ease of Care

easy to grow

Light

they can tolerate medium light conditions. we recommend placing them in partial shade with decent exposure to sunlight

Watering

let the soil dry between waterings. during winter, reduce watering. too much water can kill the plant.

Special Feature

unique foliage

Toxicity

mildly toxic if ingested

Sad Plant Signs

crispy/curling leaves, yellowing leaves:
under watered

rotting stem or leaves:
overwatered

what sets you apart makes you great
