

Small Juniper

These evergreen conifers feature leaves that can look like green snow. Juniper shrubs provide the landscape with a well-defined structure and a fresh fragrance that few other shrubs can't match. They never require pruning to maintain their attractive form.

Location

semi-indoor

Ease of Care

easy to grow

Light

they can tolerate medium light conditions. we recommend placing them in partial shade with decent exposure to sunlight

Watering

let the soil dry between waterings. during winter, reduce watering. too much water can kill the plant.

Special Feature

adaptable plant

Toxicity

mildly toxic if ingested

Sad Plant Signs

damaged leaves:
too much shade

root rot:
overwatered
