

Pachira

If you're exploring indoor trees for your home but aren't sure where to begin, trust us when we say that the Pachira aquatica is the tree you want. It is virtually kill-proof, relatively tidy, and grows as large or as small as you want. It does well in indirect light, so growing it indoors is no problem, just position it in a fairly sunny spot.

Location

indoor

Ease of Care

easy to grow

Light

these can adapt to areas that get partial sunlight and will also survive quite dim situations.

Watering

let the soil dry between waterings. during winter, reduce watering. too much water can kill the plant.

Special Feature

good for beginners

Toxicity

not toxic

Sad Plant Signs

yellowing leaves:
overwatered

dry, shriveled leaves
too much direct sun

Don't stop now
