## A Tradition of Excellence

Complete Solution for you with  
**JYOTINDRA INTERNATIONAL**

## /// Founded

The Dream was shared by a couple of people with professionalism and vision. They joined their hands together to make this a reality by forming and founding a venture called “Jyotindra Group” in 1973. Jyotindra Group stands for quality and excellence from the first day of its establishment. The group as it is seen today was established by the group Chairman, Mr. Jyotindra. He is a man with a great vision and has motivated this organization to reach this height of achievements. And since then, the group has passed through continuous evolvments and developments by flapping its wings for an organic growth with the only motto “To serve and satisfy the customers by quality products and services”.

## /// History

Jyotindra International is a family owned company which was started in 1973 in Palanpur, Gujarat, India. In 1996, Jyotindra International has been established with modern touch in technology and facility. We are always looking for innovation and best services to our customers. Jyotindra International proud to be leading manufacturer and supplier of Psyllium and its related Products like Psyllium Seeds, Psyllium Husk, Psyllium Husk Powder, Psyllium Khakha Powder etc. We are also manufacturer and supplier of Senna and its related product like Senna leaves, Senna Pods, Senna Powder , Seena Tea Bag cut etc. We are mainly involve into Exports which represent 75% of the total turnover. We are exporting to various countries around the global. Our buyers list consists of the most reputed names in the global food, food supplement, dietary fiber, Pharmaceuticals and Herbal Medicinal Industry.

## /// Vision

To be a premium global conglomerate with a clear focus on each business.

## /// Mission

Our policy is to provide products and services to the market which meet or exceed the expectations of our customers. Satisfying our customers with the appropriate level of quality is a primary goal and a fundamental element of our business mission.

## /// Core Values

Integrity of conduct, Dedication to our duties and values, Professionalism in our work, Attitude of service to our clients and fostering mutual confidence.

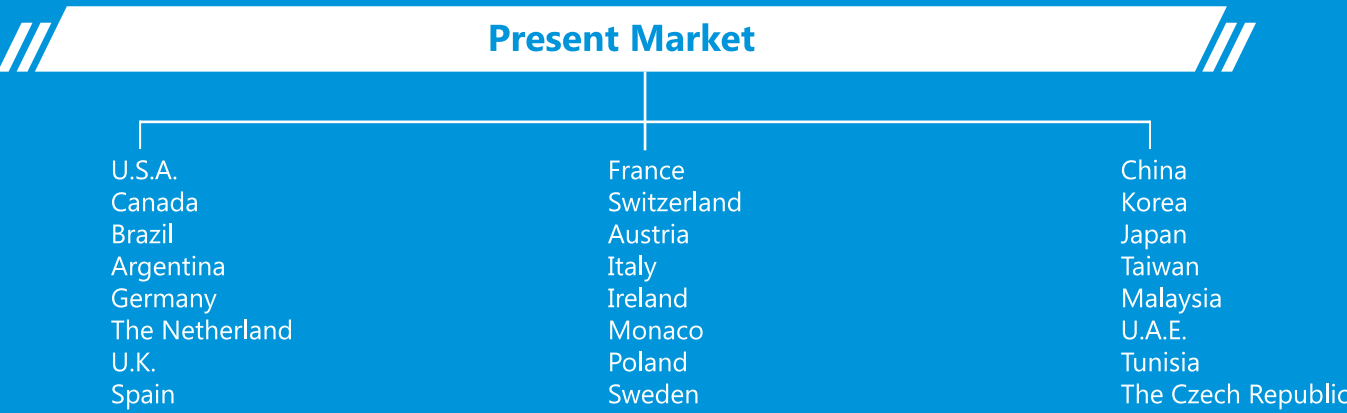

## /// Energy-conservation Or Environmentally Friendly Measures

It has always been our endeavour to Conserve Energy and Preserve the Environment. Our Products are Eco-friendly and the Production Process does not emit any pollutant. We have taken steps to conserve energy and preserve the environment. We always keep our production facility up-to-date and very well-maintained. An efficient Manufacturing Set-up helps us consume only minimal electricity/energy. We have setup AHU (Air handling unit) in all plant for safety of products. We have planted plenty of trees at our Premises, with Inhouse Production facility as well as Administrative Set-up and Our products are natural agriculture products and all process are pollution free and not using water at any stage. We have setup solar power plant Grid connected 125 KW for energy conservation and save electricity.

## /// Corporate Social Responsibility

## Psyllium Husk

### Botanical Names of Psyllium

**Plantago Ovata**

**Plantago Ispaghula**

- ▶ The husk of Psyllium is the actual coating of mucilage around the seed. It is considered pure dietary fiber and is the only part of the plant used in manufacturing Psyllium products.
- ▶ It's nutritional value consists mainly of glycosides, proteins, polysaccharides, vitamin B1 and choline. Fiber content of over 80% compared to less than 15% for oat bran and 10% for wheat bran.
- ▶ The husk is composed mostly of a fiber called hemicellulose which is a complex carbohydrate found in whole grains, fruits and vegetables.
- ▶ Hemicellulose is indigestible, however, it is partially broken down in the colon and feeds the friendly intestinal flora.

## Drying Facility

Jyotindra International is the only company in Psyllium industries who has Fluid Bed Dryer to reduce the moisture of product upto 0.5%. This process is fully automatic and computerised to ensure the moisture will be the same in all the bags as per specification. This plant is fully functioned since 2004. At present we are supplying to many Pharmaceuticals companies worldwide, to get the review about our quality from our esteemed buyer kindly contact us.
