Description

- The Burs or Sharpness at the edges of coin after blanking turns into Smooth and Shining when it is Rimmed.
- When the Rimmed coin is Embossed in Press Machine it reduces the pressure of Machine by 20%-25% which makes Machine and Dies life long with resulting in Superior Edge Finish.

Features

- Wheel diameter = 300
- Revolution = 50 Rpm
- Up down adjustment Feeder Ramp for coin Inward and Outward
- Coin Collecting Box
- Reverse Forward Switch
- Die tilting settings with Screw
- Different size grooves according to coin thickness.
