Guidelines for Minor Specific Project :

Each Students will have to make a project related to minor program. The topic of the project should be decided in consent with a faculty member. Every student is required to show his/her progress updates at a regular interval to the concerned faculty. A record of this should also be maintained. In general, the student will submit a good technical report and make a power point presentation of roughly about 30-45 minutes. Evaluation of the project will be done based on the technical content, quality of work and report, content of presentation, overall sincerity and regularity. Bound copies of the report should be submitted within the given deadline to the designated faculty.
