

GUJARAT TECHNOLOGICAL UNIVERSITY

BACHELOR OF INTERIOR DESIGN

Subject Code: 2X45101

Subject Name: INTERIOR DESIGN STUDIO-IV

Prerequisite:

It is mandatory to complete Interior Design Studio III in order to opt for this course.

Rationale:

To develop basic design skills and the understanding of nature of spaces, scales and space within a space.

Teaching and Assessment Scheme:

Teaching Scheme			Credits	Examination Marks				Total Marks
Lectures	Tutorials	Practical		External exam		Internal exam		
				(ESE) Theory	(ESE) Viva	(PA) Theory	(PA) Viva	
2	2	2	6	NA	40	NA	60	100

Content:

Sr. No.	Content	Total Hours *	Weightage* (%)
1	Unit:1: Unit 1: Design Thinking and Design Process · What is a Design Brief? · 5 stages of a design process (Research, Understanding, Ideation, Experimentation, and Refinement). Developing a ‘concept’ or ‘big idea’ · Understanding verbal and visual metaphors. · Deconstructing existing concepts to develop a cohesive visual matrix that can be applied to different aspects and elements of interior space.	10	10
2	Unit 2: Concepts of Adaptive Re use Cultural inheritance – heritage buildings and old structures; strategies of adaptive reuse – investigation into material finishes etc.	14	15
3	Unit 3: Understanding building Language: To understand the given building, its rationale with reference to structure, materials, methods of construction and the architectural language. Setting the criteria for reuse or recycling of the above.	14	15
4	Unit 4: Approach of intervention through Projects: Understanding the application of the concept of adaptive-reuse through various case studies (within the country and abroad). Critical appraisal of the design approach of the case studies. Analysis of the case studies should be based on the spatial attributes, structural knowledge and materiality of the existing structures and the strategies and tactics of adaptive reuse in architecture.	30	20
5	Unit 5: Design: Exploring the usage and adaptability aspects of selected case in contemporary contexts. Formulating retrofitting & adaptive re-use proposals for the same studies.	60	40

*: indicative

Thrust / Projects:

Projects: In space within a space correlation and interior designing of a small Restaurant or cafe of design disciplines based on design issue.

- Adaptive Reuse.
- To understand nature of spaces and scale of spaces. Understanding of structural elements as space Makers.
- Emphasis on social organization and hierarchical patterns set on premises of human manifestation in global and cultural scenario.
