

Course Rationale:

- To help build confidence in students for starting their own businesses. It can provide them with the necessary knowledge and skills to effectively run their business and make informed decisions.
- To help students establish credibility with investors, partners, and customers. It demonstrates that they have the necessary skills and knowledge to run a successful business, which can increase their chances of attracting funding and customers.
- To help students make better decisions, improve their operational efficiency, and increase their chances of success. This can ultimately lead to a more profitable and sustainable business.
- To provide students with opportunities to network with other business owners, industry experts, and potential partners. This can help them build relationships that can lead to new opportunities and collaborations.
- To provide validation of a student's skills and knowledge in the field of entrepreneurship. This can be particularly important for those who do not have a traditional business education or background, as it can help them establish themselves as credible entrepreneurs.
