

GUJARAT TECHNOLOGICAL UNIVERSITY
Syllabus for M. Arch - 2019
FOURTH SEMESTER
Subject: Research/Design Project

Course Code: X46101

Credits: 18

Course Objective: To apply existing knowledge gained through the course and contribute to existing body of knowledge in Sustainable Architecture through design or research approach.

Course Contents:

The Thesis gives the student an opportunity to apply the discipline and skills of the programme to an individually selected research topic, requiring a measure of original development, providing a vehicle for conducting an in-depth investigation, analysis and critical review of relevant material.

The student has a choice to focus on the planning and policy aspect, or the dissertation could culminate in a design of a sustainable built form. The Dissertation can also be in the form of designing a computer software for environment related issues. The dissertation can be on any of the topics studied in the earlier semesters. The Thesis is the culmination of work done on the programme and is considered to be of prime importance.
