(A Charutar Vidya Mandal's Institution)
New V V Nagar-388121, Gujarat, India.
Tel : (+912692) 233680

About CVM

Charutar Vidya Mandal was established in the year 1945 as a charitable trust with a prime objective of rural development through education. The uniqueness of Charutar Vidya Mandal lies in its ability to use quality education as a powerful means of social transformation. The dynamic leadership, missionary zeal and visionary outlook of Er. Bhikhubhai B. Patel successfully took up all the challenges and maintained various self-financed educational institutions in the areas of Technology, Science, Engineering, Commerce and Management, offering emerging and innovative courses and programs such as Mechatronics, Automobile Engineering, Bio-technology, Food Processing Technology, E-Commerce and Valuation. At present, Charutar Vidya Mandal manages about 46 Educational Institutions from schools to colleges, and a Sophisticated Research Institute, with over 30,000 students on the rolls.

About ADIT

A D Patel Institute of Technology is one of the pioneering institutes imparting technical education in the state of Gujarat, India; Established in the year 2000, managed by Charutar Vidya Mandal (CVM), one of the leading trust of the nation established in 1948. The institute is located in Satellite Township of new Vallabh Vidyanagar having green natural environment and beautiful landscape near educational hub of the state, Vallabh Vidyanagar and Milk city Anand. Institute offers courses on Electronics and Communication Engineering, Computer Engineering, Information Technology, Electrical Engineering, Mechanical Engineering, Food Processing, Civil Engineering and Automobile Engineering.

About Programme

Entrepreneurship in recent times has become an area of concern. It is a means for creating wealth, generating employment and providing new goods and services. Developing the spirit of entrepreneurship among the youth has become vital as the government cannot provide jobs for all kinds of unemployed youth. The corporate sector can provide limited jobs only to the best and that too without any job security. Moreover, it is difficult to find an ideal job that suits one's interests.

Entrepreneurship has very little to do with capital investment. It is more inclined towards an attitude, a way of thinking, etc. It goes beyond simply starting a company. Entrepreneurs challenge assumptions, recognize opportunities in periods of change, reveal patterns where others see chaos and mobilize limited resource to achieve an objective.

This Faculty Development Programme (FDP) is designed to train and develop faculty members to the message, train and motivate the youth for entrepreneurship.

Goal of the programme

- To equip technical and professional educational institutes in incorporating within or beyond syllabus coverage of entrepreneurship so that India can become hub of manufacturing
- To make aware of Government promotional schemes, Preparation of feasible reports and interaction with the first stage entrepreneurs.
