

INTERACTIVE SESSION WITH THE STUDENTS OF JAMMU & KASHMIR
(JOINTLY ORGANIZED BY GUJARAT TECHNOLOGICAL UNIVERSITY & VISHWAGRAM)

on

24th December, 2019 (TUESDAY)

Objective:

GTU and Vishwagram think that the students of Jammu and Kashmir often need special care and warmth as their native is in turmoil for a long time. Their native is too far too so when they need immediate help or care in illness or distressed conditions they require somebody here in Gujarat to approach other than their educational authorities. We want to create a cordial and homely atmosphere for them in Gujarat by socializing them with local guardians. The local guardians are those who will remain in contact with them and the students may often become their guests in short vacations. They may rely on them for their personal matters too. Moreover, by such gatherings they can come into contact with other students of their region and can share their ideas and concerns.

Vishwagram, an NGO, has been working in Jammu and Kashmir since long. It provides educational assistant to students from primary to higher education level. Moreover by arranging community programmes, it makes people aware about human concerns of the people of Jammu and Kashmir.

Date: 24th December, 2019 (Tuesday)
