Subject: Alignment of Research Work with goals of Sustainable Development

In alignment with the global commitment to sustainable development, we encourage all enrolled research scholars to consider integrating the United Nations Sustainable Development Goals (SDGs) into their ongoing and future research endeavors. These 17 goals are fundamental to the well-being of our planet and the people, and are as follows:

1	No Poverty	7	Affordable and Clean Energy	13	Climate Action
2	Zero Hunger	8	Decent Work and Economic Growth	14	Life Below Water
3	Good Health & Well-Being	9	Industry, Innovation & Infrastructure	15	Life on Land
4	Quality Education	10	Reduced Inequalities	16	Peace Justice & Strong Institutions
5	Gender Equality	11	Sustainable Cities and Communities	17	Partnership for Goals
6	Clean Water & Sanitation	12	Responsible consumption and Production		

It is recommended to **kindly indicate the relevant goal(s) while publishing your research work as keyword(s)**. This will help increase the visibility of your work in the global academic and policy communities and also strengthen the connection between your research and real-world challenges that need innovative solutions. More information about the 17 Goals can be accessed from <https://sdgs.un.org/goals>.
