CIRCULAR

Reference 1: GTU/Academic/56th AC/MoM/2026/2007 dated 25.03.2026, Resolution No. 56.7(7A).

Subject: Introduction of Courses under Multidisciplinary Open Professional Elective Courses (MOPEC) Category from Other Branches in Bachelor of Engineering (BE) Programme.

The introduction of Multidisciplinary Open Professional Elective Courses represents a significant step in enriching the educational experience of engineering students. This initiative aligns with industry expectations and prepares the graduates to excel in an increasingly interconnected and multidisciplinary professional environment.

In this regard, GTU has provided an opportunity for students of Bachelor of Engineering to study courses under MOPEC category from disciplines other than their core and allied branches. Such exposure shall help students understand the fundamentals of other disciplines and enhance their overall knowledge and skill-set. This shall be implemented from the upcoming BE Semester-V (July 2026 onwards).

Further, the Teaching Scheme available on the GTU syllabus portal will reflect the MOPEC basket, from which institutes/students may select the appropriate MOPEC based on the availability of qualified faculty at the respective institute, Infrastructure and resource availability, and Students' interest and career objectives.

The introduction of MOPEC is expected to yield the following benefits:

- Enhanced Interdisciplinary Understanding:** Students will gain foundational knowledge of diverse engineering disciplines, enabling them to appreciate the interconnectedness of various fields.
- Improved Employability:** Exposure to multiple disciplines will make students more versatile and attractive to employers seeking multi-skilled professionals.
- Innovation and Problem-Solving:** Interdisciplinary learning fosters creative thinking and the ability to approach problems from multiple perspectives.
- Alignment with NEP 2020:** The initiative supports the vision of holistic and multidisciplinary education as envisaged in the National Education Policy.
- Flexibility and Choice:** Students will have the autonomy to pursue their areas of interest beyond their core specialization.

Action Required from Institutes:

All affiliated institutes offering Bachelor of Engineering programmes are hereby directed to:

1. **Access GTU Portal:** Access the GTU Syllabus Portal to review the complete MOPEC basket and Teaching Scheme.
2. **Faculty Assessment:** Conduct an internal assessment of faculty availability and expertise for offering courses under MOPEC category.
3. **Student Awareness:** Inform students of Semester-IV (who will be entering Semester-V in July 2026) about the MOPEC framework, course options, and selection process.
4. **Infrastructure Preparation:** Ensure that necessary infrastructure, laboratories, and learning resources are in place for offering courses under MOPEC category.

All institutes are informed to take note of the above and ensure necessary compliance.
