

Guidelines for Modification of Research Title

As far as possible the PhD Supervisor, Co-Supervisor (if any), the DPC members and the PhD Scholar should try to come to the consensus regarding the Research Title before filling the Final Registration Form i.e. course work completion.

1. In cases, where Supervisor and DPC members recommend modification in Research Title, PhD scholar has to apply in prescribed format. Such application for modification of Research Title will be processed only once during the entire span of PhD admission.
2. The application as per the format at Annexure-II should be submitted to the University in hard copy and should be complete in all aspects.
3. The application for modification of research title should be accompanied by definite justification for modification of the research title from the concerned Doctoral Progress Committee (Supervisor, Co-Supervisor (if any) and appointed DPC members) and the same should be approved by Competent Authority of the University. Once approved, the same shall be notified to PhD scholar as well as Supervisor, Co-Supervisor (if any) and DPC Members.
4. **In any case, the Supervisor will have to conduct atleast one DPC as per rules of DPC conduction with the modified research title for his/her respective scholar for fulfilling the eligibility norms for applying for Open Seminar.**

Application for Modification of Research Title – w.e.f.

1. Name of Research Scholar: _____
2. Enrollment No.: _____
3. Address: _____
