

# GUJARAT TECHNOLOGICAL UNIVERSITY

(Established Under Gujarat Act. No.:20 of 2007)

Date: 24-09-2018

## CIRCULAR

Interested faculty members and students may register for the following webinar which is going to be held on Sep 27, 2018 3:30 PM IST .

**APICTIEE 2018 Webinar: "Effect Of Emotional Intelligence On Academic Performance"**

**Sep 27, 2018 3:30 PM IST**

**Registration URL: <https://attendee.gotowebinar.com/register/1422595816287220994>**

### **Description:**

This study examines the predictive validity of Emotional Intelligence (EI), assessed by a self-report and a performance ability-based measure, over students' academic achievement due to social media exposure and freedom given to the students by their parents after assured professional education in engineering, the students have developed unstable emotional intelligence. This has arisen because of immense pressure they go through during intermediate education and lack of freedom which are totally removed from them after false expectation of being an engineer and getting a job just because they joined engineering. Many bright students during intermediate studies do not maintain their GPA in engineering leading to large number of backlogs associated depression and lack of motivation to perform. The university curriculum mainly focuses on developing domain specific skills and communication skills. Even the industry also largely considers these skills with other skills, such as social ,quantitative and reasoning. Emotional skills are generally not given enough importance.

An attempt has been made to measure emotional intelligence of the students considering their self awareness, self regulation, motivation, empathy and social skills. Emotional quotient (EQ) arrived by this process is examined for any influenced on their academic performance in engineering namely GPA.

### **Presenter:**

Ms. Mrudula Kapila, Brig. Dr. R .R. N. Chowdhary  
Hyderabad Institute of Technology and Management  
Hyderabad, India

Sd/-  
Registrar (I/c)
