

GUJARAT TECHNOLOGICAL UNIVERSITY

(Established Under Gujarat Act. No.:20 of 2007)

Date: 03-12-2018

CIRCULAR

Interested faculty members and students may register for the following webinar which is going to be held on Fri, Dec 7, 2018 11:00 AM - 12:00 PM IST.

Virtual Academy: "Single Use Applications in Therapeutic Antibody Manufacturing"

Fri, Dec 7, 2018 11:00 AM - 12:00 PM IST

Registration URL: <https://attendee.gotowebinar.com/register/8955873346841583107>

Description:

In the biotechnology industry, there is an increasing trend towards the use of disposable technology. Single use systems allow one to avoid expenses associated with cleaning, operations, equipment validation, facility modifications or long construction timelines. The talk will focus on fundamentals of single use and applications for bioprocessing.

Presenter:

Ekta Mahajan is a Technical Regulatory Program Director at Genentech/Roche in South San Francisco, CA. Prior to regulatory, she has sixteen years of experience in research and manufacturing experience in biotechnology, vaccines and pharmaceuticals, and lead projects in a wide range of areas, both upstream and downstream, including commercial manufacturing support, process development, and new technology evaluations. Ekta has expertise in disposable technology and led projects for design and implementation of disposables in development and manufacturing including drug conjugates. Ekta has a BS in Chemical Engineering from the Thapar Institute of Engineering and Technology (TIET) in Punjab, India and a MS in Chemical Engineering from Bucknell University.
