All the Directors/Principals of AICTE Approved Institutions

**Subject: A Research Policy Framework Document to accelerate research excellence**

Dear Sir/Madam,

I am happy to announce the release of a Research Policy Framework Document developed in partnership with Clarivate Analytics, publisher of Web of Science research analysis platform and a global leader in providing trusted insights and analytics to accelerate the pace of research innovation.

AICTE has always encouraged academic excellence in academic institutions. Research is a key pillar of academic excellence. It is critical that institutions have a well-defined plan to develop a robust research program and incorporate research elements in both undergraduate and post graduate teaching curriculum.

The Research Policy Framework Document describes the steps for building a robust research program within an academic institution. It focuses on key considerations including careful, evidence-based planning, building human capital, resources and funding, developing collaborations, ensuring governance mechanisms to track and promote the institution's research program, and establishing an enduring system of continuous improvement.

The policy document is available on the AICTE website at <http://bit.ly/AICTEClarivate>

The AICTE-Clarivate Analytics collaboration aims to drive research as an integral component of academic excellence. Clarivate Analytics is one of the world's largest providers of intellectual property and scientific information, decision support tools, and services including Web of Science, EndNote, Journal Citation Report, Derwent Innovation and Integrity.

I encourage you to study this framework to identify relevant best practices for implementation in your institution.

Regards,

(Anil D. Sahasrabudhe)
