

Wedding DJ's for you and your wedding celebration

Hi there, we are here to help you plan for your wedding and will give you **free** information and guidelines to help you personalize your celebration. We are aware of the pressures and demands you will be under while you plan for your great day, but please be assured, those pressures and demands will be less by just allowing us to help you.

We will give you a **free** handout that will help you put that certain '**wow**' factor into your wedding celebration as well as fill out forms that will help you define what you want at your wedding and lists to help you sort out heaps of stuff.

As an entertainment company we offer you the services of our DJ's and can offer other artists as well. We have **three different wedding packages**, giving you choices of timeframe, equipment and services. Our main priority is to see **you** have a memorable **wedding celebration**.

You can contact us any time for enquiries or a booking...94899036 or 91809021

Who are we?

We are DJ's interested in seeing people like you enjoy your wedding celebration.

The principal DJ....Dave has worked professionally in this industry since 1977, and the other DJ's have joined over the last 8 years. We all come from different backgrounds with similar talents but with different music tastes and because of this we can always serve you well.

Here at Wedding DJ's for you, we aim to help you plan and prepare for your wedding celebration by showing you how to put that 'wow factor' into your celebration. We of course will supply the music and lighting and will help create that 'fantastic atmosphere and ambiance' that will set your wedding apart from others you have attended, and will help you prepare a wedding celebration that will remain in your friends and families minds for ever, just because you have personalized your celebration with that 'wow factor'.

What do we have to offer you?

Here at Wedding DJ's for you, we have developed 3 different Wedding Celebration Packages priced to please.

The Prestige Wedding Package is aimed at those who are planning a daytime wedding celebration with the minimum of lighting and effects but with our standard sound system and with a few hours spent at the wedding reception with soft background music playing and a short dance session towards the end of the celebration.

The Prestige Wedding Package is generally 3 to 4 hours in length and usually costs \$1088 to \$1288.

The Elite Wedding Package is aimed at those who are planning an evening wedding celebration with fantastic lighting and effects, and our full sound system for a celebration that will start as the sun goes down and end shortly after midnight. During that time background music will be heard during your cocktail hour, dinner music while you dine and then dancing music when the time is right. The Elite Wedding Package is generally 4 to 6 hours in length and will impress your friends but won't break the bank, costs \$1288 to \$1788.

The Ultimate Wedding Package is for those who want extra time to enjoy the company of your guests and ambience of the venue that was dressed especially for you. We bring our full sound system, a full rig of lighting and effects and all the music for you to enjoy. You will get music during your ceremony, background music during your cocktail hour and while you dine and dance music to celebrate the evening at your wedding reception. The Ultimate Wedding Package is generally 7 to 8 hours in length and will definitely fulfil your every wish, \$1988 to \$2188.

All packages come with a visit to your chosen venue and consultancy concerning the details of your celebration.

We can also arrange for and bring other entertainment for your wedding celebrations i.e. dancers, musicians, karaoke as well as something for your younger children at little extra costs.
