BESPOKE

Designed for you

Stylishly unique BESPOKE Design

Create a beautifully unique kitchen with colors that match your personal taste and interior design. The doors are available in a wide range of stylish Bespoke colors and textures.

Save energy intelligently SmartThings AI Energy Mode

Monitor and proactively save energy. AI Energy Mode¹ analyzes your refrigerator usage patterns and estimates power consumption, based on AI technology.

Twice more freshness Optimal Fresh+

Ensure that food stays fresh for twice as long². The Optimal Fresh+ drawer lets you switch between 4 modes to store different foods. In "Soft Freeze" mode it preserves the freshness of delicate foods, like meat and fish, for two times longer² than normal cooling and retains its natural flavor.

¹Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. ²Available on certain models. Testing by Samsung Electronics. Data was provided to Intertek who assisted Samsung in interpreting the data in accordance with Samsung's project plan. Tested on RT47CB668422ST and based on analysis of the APC (aerobic plate count) of sample foods after storage in the test units. Applies when set to Soft Freeze (knob MAX & temp. display 1°C), compared to Fridge room (2°C) in the fridge compartment. Results may vary depending on freshness, usage conditions, and other factors before storage.
