Dear Parents,

Scholarship for Secondary One Admission Scheme (Sep 2027 Intake)

As a distinguished DSS secondary school in Hong Kong, Fukien Secondary School takes pride in adopting a humanistic approach and is committed to promoting virtuous character and academic excellence. We work hard to nurture our students into responsible young people who care for society, love their families, and cherish their country. Under the vision of 'AI guides, Deep Learning thrives,' we expect every student to rise to future challenges and reach their full potential.

Our students are diligent and self-motivated, consistently achieving stellar results in public examinations. Over the years, our overall pass rate (Level 2+), credit rate (Level 4+), and Level 5+ rate have consistently ranked among the highest in Hong Kong. We have a proven track record of producing top HKDSE achievers who secure admission to world-class programs, including the Faculties of Medicine at HKU and CUHK. In the 2026 HKDSE examination, 192 S6 candidates earned a total of **367 top-tier grades (Level 5/5*/5**)**. Individual highlights include a top student scoring 5** in 4 subjects and 5* in 1 subject, alongside several high achievers securing combinations of 5** in 3 subjects with up to 3 5* grades—once again reaffirming our school's commitment to educational excellence.

Furthermore, we provide comprehensive guidance to help our students transition smoothly into top-tier university degree programs. In 2026, 150 graduates received bachelor's degree offers. Among them, 96 were admitted to Hong Kong's top five universities (ranked among the global top 100): HKU (19), CUHK (32), HKUST (12), CityU (24), and PolyU (9). Students gained admission to a diverse array of highly competitive fields. These ranged from flagship programs like Medicine (MBChB), Quantitative Finance and Risk Management Science, and Pharmacy at CUHK, to BBA(Law)&LLB, Nursing (Advanced Leadership Track), and Computing & Data Science at HKU. Offers were also secured in Mechanical and Aerospace Engineering at HKUST, Optometry at PolyU, and Global Business Systems Management at CityU—a resounding testament to our academic excellence.

Beyond academics, the school places equal emphasis on the balanced development of the five domains of education (morality, intellect, physical development, social skills, and aesthetics). We constantly provide opportunities and incentives for students to explore their multiple intelligences, so that each can discover their potential and grow into a capable and virtuous young adult. Over the past year, our students have excelled in many areas:

- **STEAM & Innovation:** The Robotics Team retained the Hong Kong championship and placed 4th globally at the Underwater Robotics World Championship. The Science Club won the Championship (Senior Class) in the Hong Kong Greenmech Contest, and obtained 2nd Runner-up at the World Greenmech Contest.
- **Mathematics:** Our school ranked top six in Hong Kong and received a Group First Prize at the 43rd Hong Kong Mathematics Olympiad. At the Hua Luo-geng Cup Mathematics Competition, we won the Group 2nd Runner-up.
- **Language & Debate:** Students have continuously achieved honours in Chinese and English debate and language competitions, and clinched the Championship at the Hong Kong Cup Diplomatic Knowledge Contest.

- **Sports & Arts:** Our school achieved the 3rd Runner-up among co-educational schools in the Laurel School Award, along with the Best Male Athlete and Young Athlete awards. All eight of our sports teams will remain in Division One of the inter-school competitions for the coming academic year. The badminton teams swept the Boys' and Girls' Team 2nd Runner-up at the Hong Kong Schools Badminton Championships, and the table tennis girls' team earned 3th Runner-up in Division One. The Wind Orchestra also won its first Bronze Award in the Music Festival (Intermediate Division).
