

MARCH 23-27, 2020

TO DO LIST:

Topic: Fast and Slow Sounds

People move in different ways. Like the ballerina tiptoes. When she moves her feet fast to keep herself from falling when she was dancing. Giants move and walk slowly because they are too big and heavy. When soldiers are marching, they do not march too fast or slow to keep the rhythm and pace of the whole troop or group.

In music, you can also explore the fastness and slowness of music through rhythm, singing activity, and body movements.

A. Directions: Tell whether the following kinds of songs are slow or fast. Put your answers on the blank.

1. solemn church songs _____
2. marching songs _____
