Installing Seqrite MobiSMART

Download/Install Seqrite MobiSMART

In the Welcome email, received from Seqrite MobiSMART, click the download links for your respective Android or iOS devices, or directly visit the App/Play Store to download and install the app.

- Android device: <https://play.google.com/store/apps/details?id=com.seqrite.mobismart>
- iOS device: <https://itunes.apple.com/us/app/seqrite-mobismart/id1441938673?ls=1&mt=8>

Activating Seqrite MobiSMART

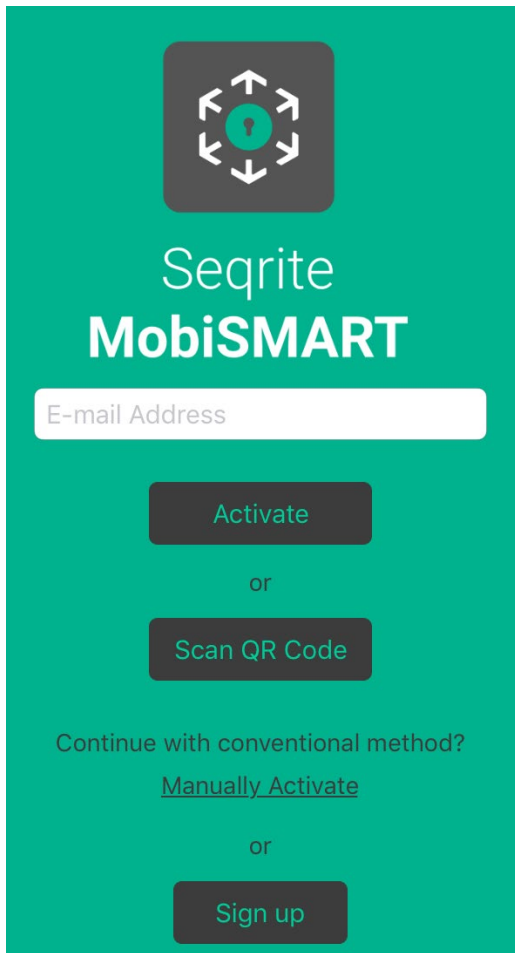

To use the Seqrite MobiSMART application, you must provision your account against your corporate Seqrite MobiSMART server and create your email account connection.

Enrolling with Seqrite MobiSMART

You can enroll your Android and iOS devices easily using mobiSMART client app. When you launch the client app, you can either activate or use the QR Code or activate the app manually.

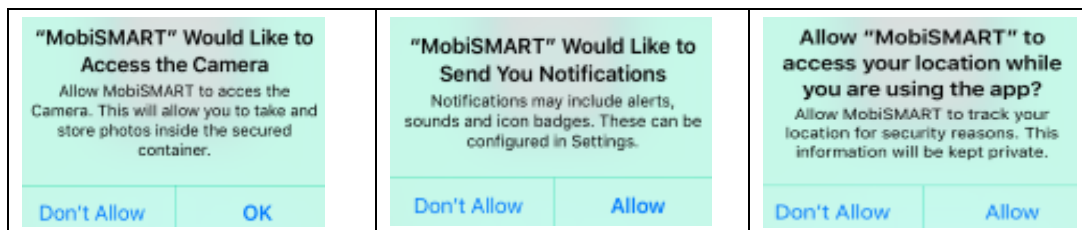

To activate the mobiSMART client app for Android and iOS devices, follow these steps:

1. Launch the Seqrite MobiSMART app from your Android or iOS device.

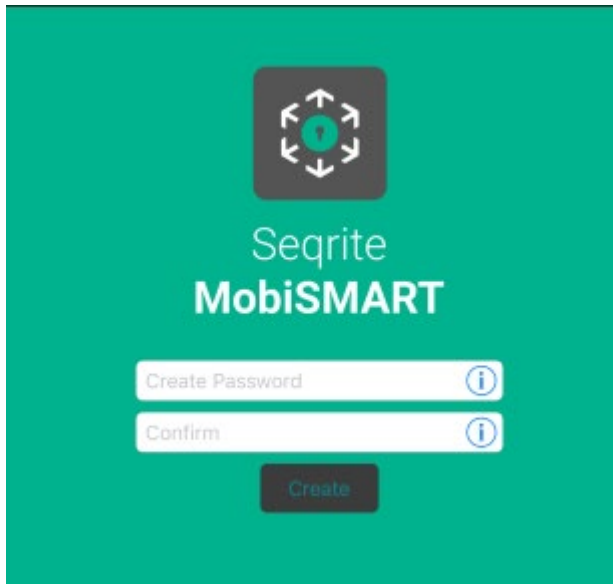

2. Use either of the options to activate the mobiSMART client app:

- **Activate:**
 - i. Enter email ID and PIN.
 - ii. Tap **Activate**.
- **Scan QR Code:** For iOS device, you need to provide the permissions first and for Android device, you must provide the permission after you tap Scan QR Code option.
 - For iOS devices, tap **OK** or **Allow** to provide permissions for camera, notification, and location on the respective screens.

- i. Enter your email ID.
- ii. Tap **Scan QR Code**. Bring your device in front of the QR Code, received in the email, and scan it.

- For Android devices, tap Allow to provide camera permission. After authentication, set new password.
 - **Manually Activate**
 - i. Tap **Manually Activate**.
 - ii. Add in all the details and tap **Activate**.
3. After using either of the above options, you are redirected to set new password.

- Create new password and repeat it in the Confirm field, and then tap **Done/Create**.

The device gets enrolled.

After you enroll your device, you can set up your email account in the Seqrite MobiSMART container. It will help to access the applications such as contact, calendar, email, and notes from the MobiSMART app.

4. On the email configuration screen, fill in all the information as follows:
- User name: Add in your email ID. This is the same user name you would use to open Outlook or Outlook Web Access.
 - Password: Add in the password with which you access your emails.
 - Domain (Optional): Add in the domain name.
 - Name (Optional): Add in any name.
5. Tap **Activate**.

Server	outlook.office365.com
Username	Required
Password	Required
Domain	
Name	My Exchange Account

After your email account is configured, you are redirected to the Seqrite MobiSMART Home screen where you can access the following applications:
