

# Slotted Angles

Slotted angles are manufactured from slotted sheets, of various thickness with uniformity of parallel holes, enabling different usage. We have the facility of fabrication this from roll forming machines. The roll forming machines ensure the neatness in finishing and facilitate mass production.

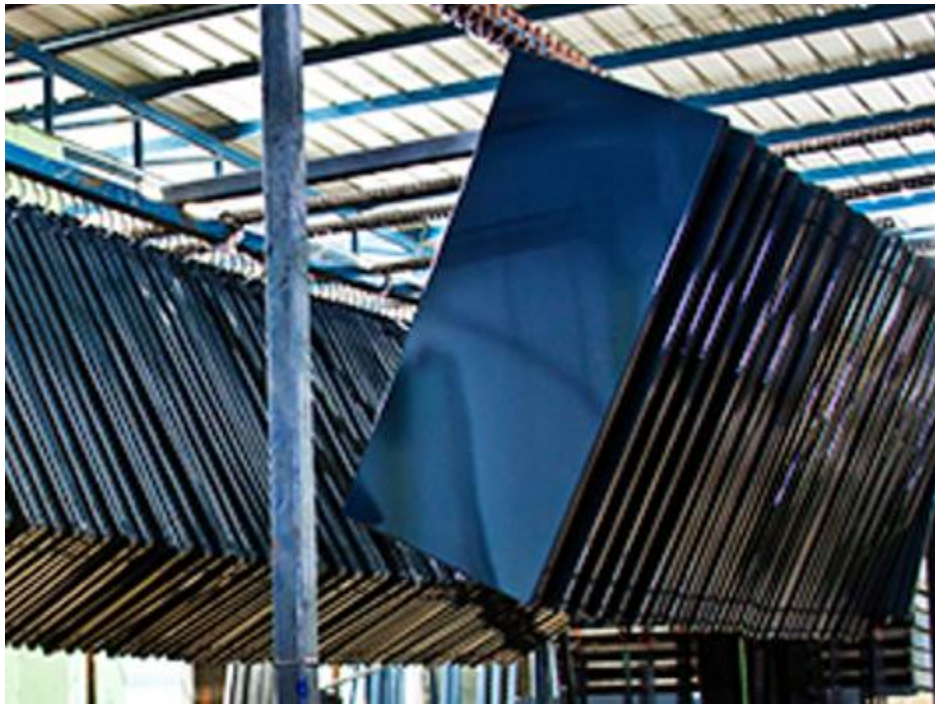

## Slotted Angles

- **Size:** 40mm x 40mm / 60mm x 40mm/ 80mm x 40mm
- **Thickness:** 1.6mm / 2.0mm
- **Length:** customized
- **Finish:** painted

# Panels

Panels for steel racks are fabricated from the CR sheets of various thickness. Lengths and widths are customized Side bending are ensured to bear the recommended loading capacity. The thickness of the panels are suggested as per the loading capacity.

## Panels

- **Width:** ranges from 150mm to 600mm
- **Thickness:** 0.8mm/1.0mm/1.2mm/1.6mm/2.0mm
- **Length:** 600mm to 1500mm
- **Finish:** Enamel painted/ powder coated
