

# InMobi Pokkt Mediation

---

## Prerequisites

- Please create account at [www.inmobi.com](http://www.inmobi.com)
  - Please read instructions at <https://support.inmobi.com/monetize/integration/android/android-sdk-integration-guide/#getting-started> to integrate your android application with InMobi
  - Please read instructions at <https://support.inmobi.com/monetize/integration/android/android-sdk-integration-guide/#creating-Interstitial-or-native-int> to show rewarded video ads in your application.
  - Register your property in InMobi account/dashboard.
  - Go to the Monetize tab and click the spanner icon next to your property. Your Placement ID is displayed. Copy this value and use it in the integration code.
- 

## Configuration in Application

- Move the InMobi-5.x.x JAR file into the libs folder of your project. Make sure to update your project's dependencies accordingly.
  - Add the necessary permissions for InMobi as suggested in InMobi integration document to your application manifest.
  - Add the recommended activities, broadcast receiver and meta data to your AndroidManifest.xml.
- 

## Code changes

- Create a class which implements Pokkt's **AdNetwork** interface.
- This class should also implement InMobi Callback interface **InMobiInterstitial.InterstitialAdListener**
- Pokkt SDK's PokktCustomNetworkVideoDelegate methods should be mapped from your newly created class methods.
  - onAdRewardActionCompleted
  - onAdDisplayed
  - onAdDismissed
  - onAdInteraction

Friday, 18 December 2015

- onAdLoadSucceeded
  - onAdLoadFailed
  - onUserLeftApplication
- Sample implementation of this class is included in release as “**InMobiNetwork.java**”. Please use this java file in your project.
  - Now the last part, please declare this class name along with package name (fully qualified class name) in your Pokkt account Dashboard for InMobi network setting.
