

InMobi iOS Pokkt Mediation

Prerequisites

- Supports InMobi version 5.1.0 and above.
- Please create account at www.inmobi.com
- Please download .ane file from below link: <https://support.inmobi.com/monetize/integration/partner-platforms/adobe-air-partner-platform-sdk-integration-guide/#requirements>.
- Please read instructions at <https://support.inmobi.com/monetize/integration/partner-platforms/adobe-air-partner-platform-sdk-integration-guide/#configuration> to integrate your android application with InMobi.
- Register your property in InMobi account/dashboard.
- Go to the Monetize tab and click the spanner icon next to your property. Your Placement ID is displayed. Copy this value and use it in the integration code.

Configuration in Application

- Add downloaded .ane file in your air mobile project from project dependency.
- There is a file "InMobiExtension_iOS.ane" inside POKKT SDK package. Please add this ane in project properties.

Code changes

- There is nothing to do in coding. Pokkt sdk ane file will be taking care of everything.
- Now the last part, please declare this class name in your Pokkt account Dashboard.
