

Chartboost iOS Pokkt Mediation

Prerequisites

- Supports Chartboost version 6.2.2 and above.
 - Please create account at <https://www.chartboost.com>.
 - Please download the .ane file from below link: <https://github.com/ChartBoost/air>.
 - Please read basic instructions at <https://answers.chartboost.com/hc/en-us/articles/201220095-iOS-Integration> to integrate your android application with Chartboost.
 - Register your App here and then go in “App Settings”->Rewarded Video-> and add the data according to you like Rewarded currency name and reward per view.
-

Configuration in Application

- Add downloaded .ane file in your air mobile project from project dependency.
 - There is a file "ChartboostExtension_iOS.ane" inside POKKT SDK package. Please add this ane in project properties.
-

Code changes

- There is nothing to do in coding. Pokkt sdk ane file will be taking care of everything.
- Now the last part, please declare this class name in your Pokkt account Dashboard.
