InMobi Pokkt Mediation

Prerequisites

- Please create account at www.inmobi.com

- Please read instructions at https://support.inmobi.com/monetize/integration/ios/ios-sdk-integration-guide/#getting-started to integrate your iOS application with InMobi

- Please read instructions at https://support.inmobi.com/monetize/integration/ios/ios-sdk-integration-guide/#creating-an-interstitial-or-native- to show rewarded video ads in your application.

- Register your property in InMobi account/dashboard.

- Go to the Monetize tab and click the spanner icon next to your property. Your Placement ID is displayed. Copy this value and use it in the integration code.

Configuration in Application

- Copy the following header files and binary from the downloaded Inmobi SDK bundle to your project.

    - libInMobi-5.x.x.a

    - IMSdk.h

    - IMBanner.h

    - IMBannerDelegate.h

    - IMInterstitial.h

    - IMInterstitialDelegate.h

    - IMNative.h

    - IMNativeDelegate.h

    - IMCustomNative.h

    - IMRequestStatus.h

    - IMCommonConstants.h

- Make sure the following frameworks are added to your Xcode project:

  - AdSupport.framework

  - AudioToolbox.framework

  - AVFoundation.framework

  - CoreLocation.framework

  - CoreTelephony.framework

  - EventKit.framework

  - EventKitUI.framework

  - MediaPlayer.framework

  - MessageUI.framework

  - Security.framework

  - Social.framework

  - StoreKit.framework

  - SystemConfiguration.framework

  - UIKit.framework

  - SafariServices.framework

  - libsqlite3.0.dylib

  - libc++.dylib

- Note: Set NSLocationWhenInUseUsageDescription flag to YES in your info.plist file

---

Code changes

- Create a class which implements Pokkt's AdNetwork interface.

- This class should also implement InMobi Callback protocol IMInterstitialDelegate

- Pokkt SDK's PokktNetworkDelegate methods should be mapped from your newly created class methods.

- - (void)interstitialDidFinishLoading:(IMInterstitial *)interstitial

- - (void)interstitial:(IMInterstitial *)interstitial didFailToLoadWithError:
  (IMRequestStatus *)error

- - (void)interstitial:(IMInterstitial *)interstitial didFailToPresentWithError:
  (IMRequestStatus *)error

- - (void)interstitialWillPresent:(IMInterstitial *)interstitial

- - (void)interstitialDidPresent:(IMInterstitial *)interstitial

- - (void)interstitialWillDismiss:(IMInterstitial *)interstitial

- - (void)interstitialDidDismiss:(IMInterstitial *)interstitial

- - (void)userWillLeaveApplicationFromInterstitial:(IMInterstitial *)interstitial

- - (void)interstitial:(IMInterstitial *)interstitial rewardActionCompletedWithRewards:
  (NSDictionary *)rewards

- - (void)interstitial:(IMInterstitial *)interstitial didInteractWithParams:(NSDictionary
  *)params

- Sample implementation of this class in included in release. InMobiNetwork.h and
  InmobiNetwork.m

- Now the last part, please declare this class name in your Pokkt account Dashboard.
