Chartboost Pokkt Mediation

Prerequisites

• Supports Chartboost version 6.2.2 and above.

• Please create account at https://www.chartboost.com

• Please read instructions at https://answers.chartboost.com/hc/en-us/articles/201220095-iOS-Integration to integrate your iOS application with Chartboost

• Register your App here and then go in "App Settings"->Rewarded Video-> and add the data according to you like Rewarded currency name and reward per view.

Configuration in Application

• First, drop the Chartboost Framework into your Xcode project. Be sure you've also linked these frameworks:

  • StoreKit

  • Foundation

  • CoreGraphics

  • UIKit

Code changes

• Create a class which implements Pokkt's **AdNetwork** Protocol.

• This class should also implement Chartboost Callback protocol **ChartboostDelegate**

• **ChartboostDelegate** has few method which is necessary to override.

  - didCacheRewardedVideo,

  - didFailToLoadRewardedVideo

  - didFailToLoadInPlay

  - didCloseRewardedVideo

  - didCompleteRewardedVideo

  - didDisplayRewardedVideo

• Pokkt SDK's **PokktNetworkDelegate** methods should be mapped from your newly created class methods.

- onDownloadCompleted

- onDownloadFailed

- onVideoClosed

- onVideoCompleted

- onVideoDisplayed

- onVideoGratified

• Sample implementation of this class is included in release. **ChartboostNetwork.h and ChartboostNetwork.m** Please check this .h and .m file for detail implementation and try to follow the same process.

• Now the last part, please declare this class name in your Pokkt account Dashboard.
