

# Chartboost Pokkt Mediation

---

## Prerequisites

- Please create account at <https://www.chartboost.com>
- Please read instructions at <https://answers.chartboost.com/hc/en-us/articles/201220095-iOS-Integration> to integrate your iOS application with Chartboost
- Register your App here and then go in “App Settings”->Rewarded Video-> and add the data according to you like Rewarded currency name and reward per view.

---

## Configuration in Application

- First, drop the Chartboost Framework into your Xcode project. Be sure you've also linked these frameworks:
  - StoreKit
  - Foundation
  - CoreGraphics
  - UIKit

---

## Code changes

- Create a class which implements Pokkt's **AdNetwork** Protocol.
- This class should also implement Chartboost Callback protocol **ChartboostDelegate**
- **ChartboostDelegate** has few method which is necessary to override.
  - didCacheRewardedVideo,
  - didFailToLoadRewardedVideo
  - didFailToLoadInPlay
  - didCloseRewardedVideo
  - didCompleteRewardedVideo
  - didDisplayRewardedVideo
- Pokkt SDK's **PokktNetworkDelegate** methods should be mapped from your newly created class methods.
  - onDownloadCompleted

Tuesday, 10 November 2015

- onDownloadFailed
  - onVideoClosed
  - onVideoCompleted
  - onVideoDisplayed
  - onVideoGratified
- Sample implementation of this class is included in release. **ChartboostNetwork.h** and **ChartboostNetwork.m** Please check this .h and .m file for detail implementation and try to follow the same process.
  - Now the last part, please declare this class name in your Pokkt account Dashboard.
