

POST COVID HACK 2020

THE GLOBAL ONLINE BLOCKCHAIN HACKATHON
UNITING DEVS TO FIGHT THE POST-COVID RISKS

Brought to you by

 **indorse** &  **coinsilium**

July - October 2020

✓ **4 - 6 Tracks**

✓ **Hundreds of teams competing**

Bringing together blockchain teams, talents, investors and protocols from around the world to **ideate, collaborate, learn, innovate & build cutting-edge decentralized, open solutions** to help us cope with the post-covid health, social, economic & privacy risks.

The Tracks

Help us to alleviate the social and economic impacts of the COVID pandemic by supporting us as a track partner and thus accelerating the POST COVID recovery process through the development of open permission-less technology solutions.

Health Track

Develop a product to disrupt the healthcare sector using blockchain

Privacy & Security

Develop a product using DLT to improve data privacy and security

User Experience Track

Develop a product to bring user experience to cryptocurrency

Propose your own track

Propose your own track and challenge statement

Crypto/Defi Track

Design and develop an innovative solution that integrates with one of our partner's hardware or software wallets.

Gamification Track

Develop a product by applying gamification and blockchain

Delivering Adoption

Through the POST COVID HACK Indorse and Coinsilium will create a bridge between hidden talents and teams and will connect them with our hackathon blockchain technology partners.

- ✓ Increase the user adoption and recognition of your technology
- ✓ 20+ blockchain solutions submitted by your track team participants
- ✓ Increase awareness about your blockchain technology
- ✓ Opportunity for participants and teams to build tools for your technology
- ✓ Opportunity to form long term developer and team partnerships
- ✓ Opportunity to spot and identify teams and developers that may add functionality, features and value to your blockchain technology long term
- ✓ Expand your developer community

Attract teams from around the world

Exposure to top talent and the best teams globally.

- ✓ Global outreach through a network of media partners
- ✓ Global social media exposure
- ✓ Exclusive 3-month POST COVID HACK global digital and offline ad campaigns
- ✓ Announced on CryptoCompare, Coinmarketcap and Coingecko
- ✓ Special Focus - Hidden Talent and Teams from India - Indorse will run 2 front-page TIMES OF INDIA ads to attract the best technical teams and talents across all of India
- ✓ Indorse will engage talents from its large talent and team database (from organizing prior hackathons in the blockchain community)
- ✓ Names and logos will be prominently placed on the POST COVID HACK website and within the POST COVID HACK marketing campaigns
